Testimonials:

“Responsive, adaptive, and professional. Their team helped us gain a complete understanding of the service and system landscape. They convened necessary stakeholders and effectively facilitated work sessions. And most importantly, they delivered consistently on project tasks and outcomes. We would work with them again should the opportunity present itself on future projects.”

– Hospital Executive (Ohio)

“We have worked with Alicia on several occasions. Her subject matter expertise in Medicaid and knowledge of behavioral health systems was an asset to a project of ours that included several large philanthropic organizations.”

– Executive Director of a National Nonprofit Consulting Firm (Massachusetts)

“Valued subject matter expertise, responsive and professional team. Their team played an integral role in gaining an understanding of readiness for impending behavioral health regulation updates. Project tasks were consistently completed in a professional manner and team members played a key role in developing considerations and recommendations for the client.”

– Principal with a Health Care Policy Consulting Firm (Michigan)
