Informed Consent

I, the undersigned, have chosen to consult with and hereby give consent and request massage therapy treatment and other massage procedures to be provided by the massage therapist.

I have provided a detailed medical history and have stated all my known physical conditions and medications, and I will keep the massage therapist updated of any changes.

I understand that massage may provide benefits for certain conditions, but results are not guaranteed.

These benefits may include relief of muscular tension, relaxation, reduction in the symptoms of stress-related conditions, pain reduction, and provision of general wellbeing.

I also understand that massage therapy may produce side effects such as muscle soreness, mild bruising, increased awareness of areas of pain and light-headedness amongst other possible temporary outcomes.

I do not expect the massage therapist to be able to anticipate and explain all risks and complications, and I wish to rely on the massage therapist to exercise judgment during the course of the treatment which the massage therapist feels at the time, based upon the facts then known, and is in my best interests.

I am aware that the therapist does not diagnose illnesses, prescribe medications nor physically manipulate the spine or its immediate articulations.

I understand that I will always be draped, and the areas undraped will be secure to ensure there is no indecent exposure. If undraping my gluteals is significant in the treatment, I do understand that it is part of the therapy.

The therapist understands that I have the right to question procedures used and to receive an explanation of any procedures that the therapist performs.

I will tell the therapist about any discomfort I may experience during the therapy session and understand that the therapy will be altered accordingly.

I have the right to refuse, modify, or terminate services at any point, regardless of my prior consent.

I also understand the therapist also has the right to terminate a massage therapy session or refuse to treat any person or part of the body.

I, the undersigned, have read the above consent. I have also had an opportunity to ask questions about its content, and by signing below, I agree to the above-named procedures for myself or my dependent. I intend this consent form to cover the entire course of the treatment for the present condition and for any future condition(s) for which I or my dependent seek treatment.
