

Understanding Customer Interaction is For Everyone

The screenshot shows the SIP PRINT web interface. At the top, it says 'SIP PRINT' and 'Version 3.0.116'. Below that are 'Manage', 'Utilities', and 'Configure' buttons. A 'Welcome sipadmin' message is visible. The main area has search filters for 'From: Date Time' (2016-05-17 00:00:01) and 'To: Date time' (2017-2-7 23:59:59). There are also radio buttons for 'Both', 'Incoming', and 'Outgoing'. Below the filters are buttons for 'Delete', 'Copy', 'Col Select', 'Nancy View', 'Save', 'Delete', 'Refresh', and 'Clear Display'. A table of call records is shown with columns: ID, Play, Agent Name, Agent Ext, Mode, Remote Name, Remote No, Date & Time, and Duration. The table contains three rows of call data. An 'Agent Scoring' overlay is open, showing details for agent Autumn Paice on call 1088454. It includes a 'Category to score call' dropdown set to 'Technical Support'. Below this is a table of scoring questions:

Item	Question	Weight	Score
1	Was the Agent courteous upon answering call?	8	Not
2	Was the customers questions answered correctly?	3	Not
3	Did the agent ask the customer if they would take our survey at the end of the call?	4	Not

At the bottom of the scoring overlay is an 'Add Comment:' field.
