WHO WE ARE

ZeeDimension Institute, led by Prof. Ezz Hatab, utilizes three decades of academic and research expertise to champion a tech-centric approach to lifelong learning, ethics, and practical skills. Specializing in disruptive technology and pedagogy, the institute offers programs and certifications in Data Analytics, Governance, Risk and Compliance (GRC), and Environmental, Social, and Governance (ESG) with a focus on Audit Automation. As the research and education arm of ZeeDimension Corporation, the institute collaborates with US and Canadian partners, annually producing insightful reports and case studies on topics such as audit automation, board governance, risk, strategy, ESG, diversity, and compensation. ZeeDimension Institute empowers leaders with the insights and skills needed for impactful transformations in governance, risk, compliance, audit, and ESG services.

WE OFFER TRAINING TO HELP YOU TO BE CERTIFIED ON ONE OR MORE OF THE FOLLOWING CERTIFICATES:

ICCP
International Certified CAATs Practitioner

ICEA
International Certificate ESG Auditor

CEAP
Certified ERP Audit Professional

CERTIFICATES DESCRIPTION

The International Certified CAATs (Computer-Assisted Audit Techniques) Practitioner training course is a comprehensive program designed to equip auditors with the necessary tools and techniques to leverage data analytics for effective and efficient auditing processes. The curriculum is structured to provide participants with a thorough understanding of CAATs and how to integrate them into the audit workflow.

The ESG (Environmental, Social, and Governance) audit course on Frameworks and Standards is a comprehensive program designed to provide auditors with the knowledge and skills required to assess and assure organizations' adherence to ESG principles. The course covers various international frameworks and standards related to ESG, with a focus on sustainability, social responsibility, and governance practices.

The ERP (Enterprise Resource Planning) audit course focuses on auditing various business process cycles within an organization. Here is an overview of the Business Process Cycles covered in the course, along with a section on Data Extraction from SAP ERP and Oracle ERP:. For example, an overview of the end-to-end process from customer order placement to cash collection. Audit considerations for order processing, invoicing, and revenue recognition.
