Praise Out Cancer Foundation Workshops Bringing Awareness, Education & Hope

Cancer Awareness Workshops Available

The Praise Out Cancer Foundation (POCF) is now offering Cancer Awareness Workshops for community groups, churches, schools, and organizations. Our interactive workshops provide vital information on breast, prostate, and other cancers, helping participants feel informed, empowered, and motivated to take charge of their health.

As proud participants in the MUSC Hollings Cancer Center MOVENUP Cancer Education Guide Training Program, our team is equipped with trusted, research-based knowledge to share with the community in a compassionate and engaging way.

Why book a POCF workshop?

Learn about cancer risks, prevention, and early detection.
Spark meaningful conversations about health in your community.
Empower individuals with resources and practical next steps.
Inspire hope and support through real stories and education.

Breast Cancer Awareness Month Lasts All Year Long

Every October we celebrate Breast Cancer Awareness Month, but the fight doesn't end there — it's a year-round mission. At Praise Out Cancer, we're dedicated to spreading awareness about early detection, offering vital screening services, and providing compassionate care. So as we give thanks for our health this season, let's wear pink proudly and keep breast and other cancer awareness alive every month of the year.

You can book a workshops all year long!

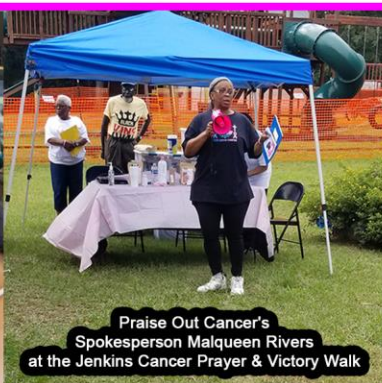

To schedule your session, contact us at:

praiseoutcancer@gmail.com or <https://praiseoutcancer.org>

Together, we can raise awareness, save lives, and bring hope.
