

# BUCK RIDGE BURN

## ON-SITE VIRTUAL HALF-MARATHON & 5K

---

Thank you again for registering for this new event! This will likely be the only year we can hold an on-site virtual event, having been given special permission this year due to the pandemic. My hope is that you find the information simple and the process easy. If we hit any snags or something doesn't make sense, let me know so we can work on it!

### Print your digital bib!

What is a digital bib?? In short, it's your race number! Print your bib and wear it when you race. Make sure to take a pic of yourself with your bib to share with your family, friends, and ME!

There are a couple of ways to snag your digital bib...

- Scroll carefully through your original registration confirmation email. Below the QR code and the UPC codes is a link to your digital bib. Click and print!
- You can also snag your digital bib by going to your RSU profile. Go to >>Upcoming Events. You will see a link to your Pre-race bib listed with your Buck Ridge Burn event. Click and print!

### When can I race?

You registered for the ON-SITE virtual race. The intention, of course, is to give you a chance to get on the course without the crowds.

Therefore, you may get on the race course starting at **2pm Sunday April 11<sup>th</sup>**. You must have your race completed and **results submitted** by **11:59pm Saturday April 17<sup>th</sup>**.

### What can I expect on the course?

- I will be leaving most of the course markings survey flags on the course after the IN-PERSON race. I will not leave my directional signs on the course as these are more prone to theft.

**5K follows YELLOW flags.**

**Half Marathon follows PINK flags.**

- PLEASE also print and take the turn sheet with you. I have had folks tamper with course markings in the past. Although I will try to pop out onto the course throughout the week to check markings, I certainly don't have time to do this every day that week (nor do I have the endurance for it! HA!)
- I will also provide you with a decent gpx file which you can load into your gps device.
- There will be **no aid stations** available to you during your chosen time, so make sure you take what you need for your distance with you!
- Besides markings....rocks, roots, mud, nature.....

### How do I submit my results?

Once you've completed your run, make sure to submit your results!
