Heritage Limited Summary

Selection of Limited Edition Ceramic Vases and Fine Art Prints for Collecting and Decorating

Heritage Limited, LLC through various subsidiaries is a fine art studio and creator, producer, and distributor of limited-edition, museum quality ceramic vases and vase prints. See www.jeangabrael.com. We also own and operate www.jeancabraelcatalog.shop and www.sigmvases.com.

Based on over twenty years of experience collecting and selling original antique prints from the 1700, 1800 and 1900s to both United States and international customers we are introducing a collection of ceramic vases and vase prints from these original engravings. Many illustrations were created by famous artists, such as Pierre Joseph Redoute, George Barbier, James Audubon and others. Our ceramic vases and vase prints are available in several art categories for sale both to collectors and also for display and decoration.

To create our exclusive vases and designs we use a traditional Greek vase. Historical Greek vases display mythological and heroic figures, such as Achilles, Athena, Eros, Zeus, etc. In addition, Greek vases also illustrate scenes of courage, love and other emotions.

Collectible Value

Ceramic vases and vase prints are produced in limited editions

To maintain price integrity, Jean Gabrael ceramic vases and prints are sold only by us and certain authorized retailers. Products have strict minimum prices established to maintain price integrity and collectible value to buyers.

NOTE: We do not allow products to be sold on eBay or Etsy.

Production

Ceramic Vases are hand made in Athens, Greece and are individually painted. Vases are made using traditional methods developed in ancient Greece. There are very few potters skilled in making vases following such techniques. Vase Prints are produced on archival, cold press fine art paper using the Giclee art printing process.

Ceramic vases are made to order and may take up to 4 to 6 weeks.

Collecting Limited Edition Prints and Art of Collectible Value

Purchasing limited edition prints and objects of art can be an excellent and affordable way to build a collection of valuable works of fine art. Limited edition vases and prints are issued in specified amounts from an original work of art and are numbered and signed by the artist or creator. Generally, collectible prints and objects of art are made by well-known and established artists and also by up-and-coming newcomers.

Based on the law of “supply and demand” collectible values can vary significantly. Popular prints by established artists can reach thousands of dollars. As an example, the 1967 Andy Warhol print of Marilyn Monroe was sold for over \$3 million. Buy what you like and enjoy. Our selection of ceramic vases and vase prints are many, including classic art, modern design, natural history, flowers, fashion and illustrations.

Typically, prints and art are sold by an artist studio, art galleries and auctions houses, such as Sotheby’s and Christie’s. Always look for the print number and the artist or creator’s signature, usually in pencil. In most instances, a Certificate of Title and Authenticity will also be available.

Art prints can be carefully matted and framed for wall décor. They can also be stored in mylar, plastic sleeves.
