MANUFACTURERS & SUPPLIERS OF FABRIC SOFAS

“For those who appreciate quality & style”

OUR STORY

We are a family based business established in Blackburn since 1979.

We have built our reputation on high quality craftsmanship, leading edge designs with materials used of the highest quality and are determined to provide a fast, efficient delivery service.

We deal with a wide range of clientele throughout mainland Britain and Ireland and we will tailor our service to meet your individual requirements and preferences.

Our range of suites include traditional, classical and contemporary designs in a variety of sizes. Our designs are complemented by our top quality fabrics which include Chenille, Draylon and Flat Weavers as well as a wide range of leather.

We offer a delivery service with no minimum order, extending throughout mainland UK and Ireland, with a concept that guarantees delivery from stock to your warehouse within 3-4 weeks. Containerised purchasing options also available upon request.

For enquiries please contact our Head Office on 01254 264156.

QUALITY STANDARDS

From our traditional favourites to our modern suites, our ranges are designed to suit individual needs.

FRAME CONSTRUCTION

Our frames are made from A Grade Birch hard wood timber which is very strong. All frames are then screw fixed and wood glue is applied along with staples to ensure that the fundamentals of our sofas remain as solid and hard wearing as possible.

INTERIORS

Base – All of our seat bases come with zig zag springs (no sag springs) followed by a silent wire holding all the springs together giving the same tension on each spring for extra comfort and support. This is followed by a nylon fabric support on top of springs.

Seats – For all of our seat cushions we use a 7" polyurethane foam which is a high quality 40 density foam which will give a longer lasting shape. This is then followed by a 400 gram Dacron wrap wrapped around the seat foam to give the extra comfort and style needed.

Backs – All of our back cushions are filled with conjugated hollow fibre. The fibre is self-carded in our own factory then blown to fill cushions to give maximum quality. We use 12-15 denier fibre for extra support.

MACHINERY

Over the past few years we have invested in many different machineries and technologies to make our company's production line more efficient and up-to-date. Some of these machines include a state of the art CNC woodworking machine which gives us better quality frames and allows more capacity. We also have an automated spring clipping machine along with a Lectra fabric cutting machine and many other machines in our production line.

PRODUCTION

All of our sofas are handmade to order and manufactured to UK Safety and Quality Regulations in our own factory in the UK.

Most of our suites are available with sofa bed action, suitable for occasional use with a 2" foam mattress. The bed action is a three fold bed. Available as a 4ft bed and 3ft bed.

BESPOKE

While we offer several standard sizes, we understand that rooms come in all shapes and sizes, so we're flexible too. If you want your sofa to fit a specific space, we can tailor it's width and depth to suit your requirements. Take the opportunity to choose from a selection of seat cushion interiors to exercise your artistic side.
