

## Manitou Conference Room Schedule

### 8:55-9:15 AM

3: Assessing the impact of pharmacist-led interventions in an integrative care team for enhancing GLP-1 RA medication access and treatment outcomes (Haley Huddleston)

### 9:20-9:40 AM

29: Incidence of ileus with use of GLP-1 and GLP-1/GIP agonists in patients with spinal cord injury: A retrospective chart review (Allison Nugyen)

### 9:45-10:05 AM

28: Evaluation of complications related to glucagon-like peptide-1 receptor agonists in trauma patients (Karlyn Tse)

### 10:10-10:30 AM

43: Identification of patients who are candidates for potential glucagon-like peptide-1 agonist deprescribing (Jessica Van Laren)

### BREAK

### 10:40-11:00 AM

1: Assessment of the real-world value of proprotein convertase subtilisin/kexin type 9 inhibitors (Izumi Asano)

### 11:05-11:25 AM

14: Assessment of the real-world use of the Migraine Disability Assessment Questionnaire (Claire Paciga)

### LUNCH

### 12:55-1:15 PM

11: Enhancing patient-centered care: A pharmacy-led approach to hypertension management through the HBPM program (Stephanie Quach)

### 1:20-1:40 PM

21: Opioid prescribing practices in outpatient dental clinics (Sarah Goldsmith)

### 1:45-2:05 PM

36: From policy to patients: impact of the Colorado insulin affordability program (Lindsey Little)

### 2:10-2:30 PM

44: Evaluation of pharmacist comfort and readiness for prescribing services for HIV PEP / PrEP after completing an educational video (Dana McDonald)

### BREAK

### 3:00-3:20 PM

7: Student seating location effect on academic performance and classroom engagement in a pharmacy TBL classroom (May Pham)

### 3:25-3:45 PM

12: Evaluating how pharmacy students' work experience influences their career goals (Kathryn Miller)

## Shoshoni Conference Room Schedule

### 8:55-9:15 AM

26. Retrospective analysis of antimicrobial stewardship with pharmacist emergency department culture follow-ups (Anastasia Mustoe)

### 9:20-9:40 AM

34. Peer comparison of antibiotic prescribing among providers for unconfirmed sepsis (Duachee Lo)

### 9:45-10:05 AM

24. A retrospective assessment of *Proteus* bacteriuria in the SCI population (Kendra Swanson)

### 10:10-10:30 AM

23. Impact of "cefazolin for all" campaign for perioperative antibiotic prophylaxis in patients with penicillin allergy label (Tran Nguyen)

### BREAK

### 10:40-11:00 AM

4. Impact of Xpert MRSA/SA PCR on the treatment of Staphylococcal bacteremia in a large tertiary care academic hospital (Eugenio Hernandez)

### 11:05-11:25 AM

8. MRSA nasal PCR effect on duration of MRSA empiric therapy (Sarah Beecroft)

### 11:30-11:50 AM

6. Predictive value of MRSA nares PCR in patients hospitalized for more than seven days (Rebecca O'Toole)

### LUNCH

### 12:55-1:15 PM

16. Retrospective evaluation of cystatin c-guided vancomycin dosing in veterans with spinal cord injury (Kimberly Brown)

### 1:20-1:40 PM

52. Comparison of population models on impact of Bayesian-vancomycin-AUC dosing (Shannon Sanchez)

### 1:45-2:05 PM

18. Evaluating the impact of the BioFire FilmArray Pneumonia PCR Panel on antibiotic de-escalation in an ICU population (Caitlin Hart)

### 2:10-2:30 PM

32. Utilization and clinical impact of *Clostridioides difficile* toxin assays added to multiplex gastrointestinal polymerase chain reaction tests (William Beech)

### BREAK

### 3:00-3:20 PM

38. The comparison of clinical outcomes between high vs. low bioavailable oral antibiotics for gram negative bacteremia (Emily Nguyen)

### 3:25-3:45 PM

46. Antimicrobial stewardship initiative to reduce treatment durations for skin and soft tissue infections (Bobby Hardisty)

### 3:50-4:10 PM

37. A retrospective evaluation of efficacy comparing Pylera to traditional quadruple therapy for treatment of *H. pylori* in a safety net hospital (Michelle Reyes)

## Arapahoe Conference Room Schedule

### 8:55-9:15 AM

17. Comparison of three alcohol withdrawal treatment strategies (high vs. low-dose phenobarbital vs. benzodiazepine monotherapy) in hospitalized patients (Steven Sloan)

### 9:20-9:40 AM

48. Phenobarbital vs. benzodiazepines for treatment of alcohol withdrawal in the trauma intensive care unit (Steven Sanders)

### 9:45-10:05 AM

30. Evaluation of SEWS algorithm before and after removal of by mouth diazepam (James Young)

### 10:10-10:30 AM

50. Impact of letter campaign on alcohol use disorder pharmacotherapy utilization (Laura Moyer)

### BREAK

### 10:40-11:00 AM

55. Meropenem vs. piperacillin-tazobactam for the treatment of intra-abdominal infections that include enterococcus (Angelica Tran)

### 11:05-11:25 AM

15. Assessing the correlation between cystatin C, serum creatinine, and combined eGFR equations via vancomycin kinetics in critically ill patients (Kaitlin Blotske)

### 11:30-11:50 AM

54. Comparison of acute agitation medications in the emergency department and need for secondary interventions (Reanna Jereb)

### LUNCH

### 12:55-1:15 PM

45. Evaluation of practice variations with the use of stress dose steroids and impact on hemodynamic stability in septic shock (Rhiannon Montgomery)

### 1:20-1:40 PM

42. Time to vasopressor therapy initiation and outcomes in patients with hepatorenal syndrome in the intensive care unit (Brookelyn Peterson)

### 1:45-2:05 PM

35. Correlation of corticosteroid initiation, vasopressor use, and random cortisol levels (Petra Erhardt)

### 2:10-2:30 PM

53. Evaluation of hemodynamic goals in neonatal and pediatric vasopressor use (Christopher Pfaff)

### BREAK

### 3:00-3:20 PM

2. Identifying risk factors for elevated creatine phosphokinase levels with propofol continuous infusion (Alice Voell-White)

### 3:25-3:45 PM

19. A comparative study evaluating incidence of hypoglycemia in the intensive care unit before and after implementation of an insulin infusion order set (Shane Murphy-Pociask)

### 3:50-4:10 PM

27. Evaluation of standard versus reduced insulin doses for the treatment of hyperkalemia (Morgan Schenk)

## Comanche Conference Room Schedule

### 8:55-9:15 AM

10. Assessing outcomes in patients prescribed direct oral anticoagulants after bariatric surgery (Marcus Hayner Irizarry)

### 9:20-9:40 AM

13. Hemorrhagic conversion rates in acute ischemic stroke post-fibrinolytic with thrombectomy: Aspirin versus stenting with dual antiplatelet therapy (Natalie McCourt)

### 9:45-10:05 AM

22. Retrospective review of alteplase and tenecteplase for the treatment of acute ischemic stroke and the incidence of hemorrhagic conversion (Brittney Petmanson)

### 10:10-10:30 AM

40. Post-administration tenecteplase complications in stroke patients (Nina Holley)

### BREAK

### 10:40-11:00 AM

41. Bleeding complications in low body weight trauma patients treated with enoxaparin for venous thromboembolism prophylaxis (Nicholas Perez)

### 11:05-11:25 AM

51. Etomidate versus ketamine for rapid sequence intubation (RSI): hemodynamic impacts in heart failure patients (Mezhgan Aslamy)

### 11:30-11:50 AM

49. A retrospective comparison review of bivalirudin and argatroban when used for suspected or confirmed heparin-induced thrombocytopenia (Sabrina Lopez)

### LUNCH

### 12:55-1:15 PM

33. Cost associated with fixed-dose immunotherapy in patients with weight extremes (Kristina Ortiz)

### 1:20-1:40 PM

5. Recurrence rates in patients switched to adjuvant fulvestrant due to intolerance to standard hormonal therapy for breast cancer: an evaluation (Julia Tegethoff)

### 1:45-2:05 PM

31. Evaluation of serum lithium monitoring in an inpatient psychiatric facility (Ching-Yu Huan)

### 2:10-2:30 PM

39. Formation of an outpatient ketamine infusion clinic at the Cheyenne Veterans Affairs Health Care System (VAHCS) for treatment resistant depression (John Edwards)

### BREAK

### 3:00-3:20 PM

20. Comparing the incidence and severity of mucositis with or without palifermin prophylaxis in bone marrow transplant patients (Jordin Watson)

### 3:25-3:45 PM

9. Evaluation of early initiation of SGLT2 inhibitors following heart transplant (Anna Becherer)

### 3:50-4:10 PM

25. A retrospective evaluation of the effect of GLP-1 receptor agonists on stable regimens of chronic immunosuppression in solid organ transplant recipients at the VA ECHCS (Emily Medina)
