Gentlemen:

As promised I have attached a copy of my presentation given to you on this date.

In addition, here are the references of two documents you may want to try and obtain:

1. "Report of Engineering Investigation of Echo Flight Incident, Malmstrom AFB, Mont. - 16 Mar 67"
2. Secret Message DM73 02751, 17 Mar 67, "Loss of Strategic Alert, Echo Flight, Malmstrom AFB"

We had requested them under FOIA but did not receive a productive response.

Thanks again for the opportunity to put my experience on the record.

Robert

Mr. Salas,

Received, thank you. I want to pass along a big "thank you" from the AARO team. Your dedication to this issue and the resources, time, and energy you invested in researching and documenting your experience, and associated events, are greatly appreciated. I'm glad we were finally able to document this accounting and evidence into the intelligence record and will include this information in our investigation as an authorized disclosure IAW the FY23 NDAA.

I'm hopeful the collective contributions of patriots like you and the current level of government interest and investment will provide answers to the questions the citizens of our country have demanded for such a long time.

V/r,

- Kevin

Hi Kevin:

I very much appreciate receiving your message of support. Just know that I am completely serious of continuing to assist you and the AARO mission in any way. We have the same objective of understanding the breadth and scope of the UAP. Please don't hesitate to call on me.

Sincerely,

Robert

Mr. Salas,

Greetings from Arlington, VA, I hope all is well.

We are still conducting interviews, but are also attempting to put the testimony into a statement for the historical witnesses to sign. You mentioned you would send us the comments you prepared for our interview in a form that we could more easily and accurately turn into a statement. If you don't mind forwarding that to me, I will work to get your statement to you for signature so we can enter it into the historical record.

Hi Kevin: I have attached a copy of the presentation I gave to you on February 15. I am certainly willing to sign a statement that this is my testimony for the historical record. I had previously sent you a copy of my Powerpoint presentation that included the applicable references. I have also attached a listing of the Notes that were referenced and a listing of the references. I have each of those references on separate files if you need them.

Please let me know if I can provide any additional information or be of further assistance.

I hope you will also be interviewing David Schindele. His testimony about the September 1966 Minot AFB, ND incident including the two I presented would testify to the fact that within a six-month period, thirty Minuteman ICBMs were disabled during UFO encounters.

Thank you for your work in getting our truth told.

Regards,

Robert

To: Bob Salas [REDACTED]

Mr. Salas,

Please find enclosed a document that I prepared from the materials you provided that has been reformatted into a Memorandum For Record. The PowerPoint slide deck is too large to include here, so I'm making it a hard copy attachment to this MFR for our permanent records.

If this needs to be edited in any way, please feel free to do so.

Once you are satisfied, please fill in the "page ___ of ___" at the bottom of each page and then place your initials next to each.

Then go to the last page and sign and date.

You can do this electronically, or you can print and sign in ink, then scan and return to me.

Please let me know if you have any questions.

V/r,

- Kevin
