

Our Belief Statement

We the students of The International Family Academy believe that the first and foremost commandment of all things is “Love.”

First, we discover our capacity to Love all aspects of self fully and unconditionally. We recognize that all life is connected and that each of us is an Essential part of a whole or “Holy” collective Body, the “Greater Body.” Including the extended parts of ourselves as ONE, we naturally love all others just as we love the essential and true “self.”

Having discovered and applied this capacity to love, we live life from a “Heart-Based” perspective, which allows Love to direct our thoughts, opinions, judgments and actions in all ways and in all endeavors. We seek peace, justice, and prosperity for all, while honoring our truth and our Divine right to “BE,” honoring all life both individually and collectively.

All considerations and rules of righteous living hinge upon the basic principle of “Heart-Based Living In God.” As we live we are guided along our path of experience while continuing our growth in healing, learning and empowerment for all.

Amen.
