

THE SUN

Wednesday, April 1st

The sun gives heat and light to the Earth.
What two things does the sun give to Earth?
The sun gives heat and light to the Earth.

Wednesday, April 8th

The sun is a star.
What is the sun?
The sun is a star.

Wednesday, April 15th

The sun is always shining.
Is the sun always shining?
The sun is always shining.

Wednesday, April 22nd

On cloudy days you cannot see the sun because it is behind the clouds.
On cloudy days why can't you see the sun?
On cloudy days you cannot see the sun because it is behind the clouds.

Wednesday, April 29th

The sun is shining where it is day in another part of the world.
Where is the sun shining when it is our night?
The sun is shining where it is day in another part of the world.
