## March 2026 Review

(Review at your own pace)

Parent: Air is everywhere? Where is air?

Child: Air is everywhere.

Parent: Air is invisible. You can not see air. Can you see air?

Child: Air is invisible. You cannot see air.

Parent: Air takes up space. Like when you blow up a balloon.  
Does air take up space?

Child: Air takes up space. Like when you blow up a balloon.

Parent: Air that moves outside is called wind. What do you call air that moves outside?

Child: Air that moves outside is called wind.

Parent: People need air to breathe. Do people need air to breathe?

Child: People need air to breathe.

Parent: Air must be clean to be breathe. Dirty air can make you sick. Must air be clean to breathe?

Child: Air must be clean to breathe. Dirty air can make you sick.

Parent: Everything alive needs air to live. Does everything need air to live?

Child: Everything alive needs air to live. People, plants, fish and animals need air to live.
