## Things To Do Before You Are 30

*A collection of wisdom for young women from women*

By *Nancy Gort*

This book is meant to be a special gift for the many young women who are special in our lives – our daughters, nieces, grandchildren, recent graduates, soon-to-be mothers – any loved one you want to share a world of insights with. I have gotten so many responses already, and I have found these shared messages to contain a variety of advice including memories, dreams, wishes or regrets. Some of these shared ideas are a bit frivolous, some are a little sad, and some are downright hysterical! The enthusiasm has been overwhelming! Everyone seems to think *they* hold the key to helping someone else find their happiness. Think of that one thing you really wish someone had told you! Or that one thing someone did tell you that you wish you had listened to. Or something you did before you turned 30 that you think had the most impact on your life after 30. Your personal message will be in my book, which will feature original watercolor paintings by local artist/illustrator Stephanie Lambert that readers can enjoy.

Filled with sincere messages that can be handed down for generations to come, this book will be both meaningful and beautiful!

Thank you!

Please submit your piece of advice, your FIRST name and your AGE at the time of your submission.

When the book is published, I will post here on my site...you can get a copy and have fun finding your piece of advice with your name!
