

Airbrush Tanning

Instructions for Rapid Airbrush Tan

Please follow these Prep and Post Instructions for best results!

*** Important Prep and Hydrate skin the night before your appointment for best results.**

Prior Tan Preparation (Night before):

1. Cleanse / Exfoliate Skin, Shave & Moisturize entire body well the night before session. (No harsh Soap or Burt's Bees Product).
2. Skin should be Clean & Dry before session. Exercising before is ok but only if you rinse right after so please plan accordingly before arriving for your appointment.
*** Do Not wear any moisturizer to skin right before, makeup and deodorant should be removed. *Face cleanser or Makeup Wipes are available if needed.**
3. Wear Darker loose clothing and any undergarments that will make you comfortable, Nothing tight should be worn for the drive home. ***Shower-cap, Hair-tie, Pasties and Barrier Cream are provided if needed.**
4. Cover leather or light interior in vehicle for drive home if you choose to wear shorts.

Post Tan Care:

1. Norvell Rapid Tan is designed to quickly develop (min 3hrs.) if you don't have time to wait longer, (4-8hrs.) ***NOT recommended sleeping in solution! We will discuss and determine the length of time you should wait based on your skin, Tan preference desired before you leave appointment.**
2. Rinse off in Cool water and a light amount of gentle Cleanser or Moisturizing wash can be used if needed (No harsh soap & No exfoliation, No Burt's Bees).
3. Avoid rubbing with towel, pat your skin dry and immediately apply hydrating lotion or hydrating spray to entire body after session and every day after. (No Burt's Bees)
*** Hydrate skin everyday-after Tan to extend the longevity and sunless skin glow.**
*** No exercise, sweating, jacuzzi or sauna use for at least 12 hours after session.**
