## INTRODUCTION TO REOPENING SAFETY PLAN

The last few months have been a difficult time, doors across the country have been closed, my thoughts have been with all the workers on the front line, our communities and with my clients. Whether it be the virus itself or it's consequences on the workforce and the economy, the impacts have been deeply felt by everyone.

Public health experts tell us that it will take some time for life to return to a sense of normalcy. We cannot stop enjoying life until then. What we can do, is take what we know now about the virus and implement the knowledge given to be responsible and create a safe environment to curb its spread.

Preparing for when I can re-open at The Wellness Spot all businesses are working together to develop a plan that will allow us to safely welcome clients back into our building. This "Safety Plan," take an extensive approach for my personal business and clients, I must do so safely, it's critically important.

During this break my focus was on comprehensive Training and I received the Barbicide COVID-19 personal and business Certifications on new health and safety protocols, proper wearing of personal protective equipment (PPE) and reinforced training on the importance of hand washing, cleaning and sanitation guidelines. I will have physical signage displayed in my treatment for clients to view of daily proper sanitation rendered.

More than that, I am proud of my business and confident in my ability to operate as a Trained and Licensed Esthetician with this safety plan in place. I will rise to this challenge, ready to provide the best service and experience for which I am trusted, so my clients can resume appointments with confidence.

I look forward to seeing you soon. Please continue to stay safe. Thank you!

## APPOINTMENT ARRIVAL AND SOCIAL DISTANCING

As I prepare for reopening, I strongly believe in my ability to balance safety as the center of my operation and still offer a great service as I know my clients will expect that from me, with the urgent need to apply my knowledge and that of what we know about the virus, I must adapt my environment accordingly to keep us safe.

- > **Front door will now be the only Main Entrance** for all clients to access the building.
- > **Back door entrance** (used prior) now will **only be an Exit** moving forward.
- > **You must wear and keep your Mask on the entire time you are in the building, restroom and my treatment room**, keeping a social distance from others when possible.
- > **No waiting room at this time**, until further notice. **Please wait in your vehicle and text me upon arrival. I will reply back when I am ready for you to enter.**
- > **If you have any reason to believe you may have been exposed to the virus or are not feeling well in any way, I strongly urge you to reschedule your appointment.**

## MANDATORY MASKS AND PERSONAL PROTECTIVE EQUIPMENT (PPE)

I will offer a mask to anyone if you forget to bring your own, free of charge if needed. Masks must remain on the entire time in the building. I will wear all required (PPE) for the entire duration of my work day to protect everyone.

- > **I encourage and ask all clients to bring their own mask, as it will be required before entering the building** and in my treatment room or while using the restroom.
- > **Masks must remain on in my treatment room.** When Facials resume, I will tell you when to remove your mask, it will need to be placed back on immediately after service is done.
- > **I will wear my Mask and all proper (PPE) in accordance to CDC & OSHA guidelines**, during the entire duration of the day and changed after each service.

## HAND WASHING AND ENHANCED SANITIZATION SKILLS

Signage will be present to remind every one of the importance of hand-washing before beginning service. Following guidelines, I have increased the amount of routine cleaning, with a focus on high-touch surfaces in my room and the common-areas.

- > **Hand-washing with soap and water will be required before service, and hand sanitizer will be readily available** with a visible presence throughout the building.
- > **I am using all EPA-approved solution products such as Cavicide Germicidal Wipes, Barbicide Concentrate, Citrus II Spray and Ozium Air Sanitizer Spray** in my treatment room and common areas will be cleaned regularly each day by everyone in the building.
- > **Standard OSHA & CDC guidelines will be followed**, cleaning and disinfection will be done between each client, deep cleaning at start and end of day.

## DIGITAL PAYMENT OPTIONS

The most convenient, contactless way to pay for a service is as easy as reaching for your phone. I offer a couple digital payment options via Venmo and PayPal for a more contactless approach. I will still accept all forms of payment as before and allow clients to decide what is most convenient and best fit for you.

- > **I encourage all clients to pay for service using Venmo or Pay Pal** for the time being if possible to minimize contact.
- > **Pre-pay for your appointment over the phone prior to service is also an option for anyone and encouraged.** I will continue to accept all payment options if a digital option or pre-pay does not work for you.
- > **I will ensure my desk, equipment and all surfaces used during contact transactions are cleaned and disinfected after each use.**

Clients!

I want to say how truly grateful I am to have each and every one of my clients. I understand that these reopening times are a bit different and an adjustment for everyone, myself included.

However, I pride myself in my work and safety training as it is something I have had to do even prior to this pandemic. I want to keep all of us safe, most importantly my clients who are trusting in me. I want everyone to enjoy coming to see me for their treatment or service.

I want to make everyone happy and take extra precaution and time when needed to ensure all aspects of safety and cleanliness are being met. If you have to wait a few extra minutes for your appointment moving forward I ask that you be patient with me so I can make sure all is done and everyone feels confident that everything is being done properly.

I appreciate your understanding, willingness to abide by the guidelines set in place moving forward, for as long as it takes. We will go back to the way life was before this all started but until then lets enjoy our time together and continue to be safe and well.

Thank you and I look forward to seeing all your beautiful faces soon!

With Love,
