Annual Service Contract

Your backflow preventer (vacuum breaker), which is above ground per area guidelines, can freeze during cold temperatures and burst. To prevent dealing with constant sudden leaks and high repair bills during the worst times of year, we offer an Annual Service Contract.

Simply complete the slip below and send it back with your payment. We will make sure you are on our automatic list annually!

OPTION # 1 - An annual fee of \$150 for two yearly visits, including one walk through.

1 - Spring Turn-On & Walk Through

(\$40 savings on scheduling separate)

We will schedule with you to walk through the system for needed adjustments and repairs, leaving your controller set up for warmer spring weather. ** Includes (1) one hour of labor. All parts used on site are billed separately. **

2 - Fall Winterization

This is a basic shut down to make sure no water remains in your vacuum breaker to freeze during winter months.

** Louisiana laws now regulate all running vacuum breakers be tested annually to ensure there is no chance of backflow of grey water into the city water lines. One of the above visits can include that test and submittal of all needed reports to the city, as long as it's noted prior to the visit.

Should repairs be needed to get the unit to passing, those parts will be billed outside the scope of this agreement. **

OPTION # 2 - An annual fee of \$110 for two yearly visits.

1 - Spring Turn-On

(\$40 savings on scheduling separate)

2 - Fall Winterization

** These are both basic visits. Neither include the cost of a walk through or controller check.

All calls outside of this basic agreement are billed separately. **

As a Service Contract Customer, you will be given priority over other customers when scheduling.

This contract will run from the month in which it is returned to that month in the following year.

An option to renew will be mailed upon expiration so you never have to worry about missing a scheduled visit.

All service calls outside the scope of this contact will be charged to the residence accordingly.

TERMS: This contract is non-refundable. In case of move, it may be transferred to the new homeowner or to your new home.

If your property is commercial or over ten zones and requires two technicians, the second tech is at an additional charge, to be billed with parts used on site.

We service all of Louisiana, but additional charges for extended drive times may apply for those outside the Shreveport / Bossier area.

Please, return bottom portion with payment. The top portion is for your records.
