

## **Fabric-Guard**

### **Stain and Rain Repellant**

Fabri-Guard is an all-purpose fabric and leather protector. It effectively protects against those annoying spills on furniture, car seats, carpets, clothing, suede and leathers, including footwear. It provides equal protection against rain and sleet for rainwear, coats, boots, tents, awnings, umbrellas, etc.

Fabri-Guard penetrates the material, surrounds the fibers, and protects them from stains, liquids, smoke, and clinging odours.

By imparting a soft yet durable invisible film of protection, Fabri-Guard enhances the life of your fabrics and makes the clean-up of spills a breeze.

#### **Benefits:**

- Fast drying
- Very low odour
- Non-staining
- Contains no ozone depleting substances
- Safe to use ( minimal skin irritation)

#### **Coverage:**

Coverage depends upon a number of factors including the porosity of the material, ambient temperature, humidity, and the application technique. Our experience has been that one litre of Fabri-Guard will treat about 10 sq. meters of fabric. Course fabric and carpeting may require more to cover all of the surface area of the material.

#### **Caution:**

Always test fabrics and leathers for colour fastness by spraying a hidden area of fabric until wet. Then wipe with a clean white cloth. If any colour rubs off on the cloth, do not treat the fabric

#### **Availability**

4x4 Litre cans  
20 litre pail  
205 litre drum
