

STERISAN

**DISINFECTANT NO RINSE SANITIZER
VIRUCIDE MILDEWSTAT**

Sterisan is specially formulated for use in hospitals, nursing homes, food processing plants, dairies, restaurants, bars, animal quarters, kennels, and institutions where effective disinfection, sanitation, and deodorization are crucial. It effectively deodorizes challenging areas like garbage storage zones, empty bins and cans, pet areas, and other spots prone to odors caused by microorganisms. Additionally, Sterisan can be used to sanitize food-grade eggs in shell egg and egg product processing plants after they have been cleaned.

DILUTION RATES:

General Disinfection: Mix 22 ml of Sterisan with 4 liters of water to disinfect against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Listeria monocytogenes*, *Yersinia enterocolitica*, *Escherichia coli*, and *E. coli* O157:H7.

Hospital Disinfection: Mix 22 ml of Sterisan with 4 liters of water to disinfect against *Pseudomonas aeruginosa*. Any equipment that will come into contact with feed or drinking water must be rinsed with potable water before use.

Availability:

4x4 litre jugs
