

# GREASE BUSTER

**"Green"**

*Heavy Duty Degreaser*

**GREASE BUSTER** is a powerful, concentrated, and fast-acting water-based cleaner and degreaser. Its high alkalinity enhances the cleaning power of organic surfactants, delivering exceptional results.

GREASE BUSTER effectively removes grease, oils, grime, soot, smoke, other stubborn soils, and certain inks from concrete, metal, plastic, rubber, enameled, and other hard surfaces. It eliminates gas, oil, and other stains from concrete and asphalt surfaces without damaging them.

- **Asphalt Cleaning:** Asphalt, being petroleum-based, often holds onto oil and grease. GREASE BUSTER overcomes this challenge without harming the asphalt surface.
- **Concrete Cleaning:** Acid-based concrete cleaners can erode the surface, leaving it porous and prone to quicker soiling. GREASE BUSTER cleans effectively while keeping the concrete surface intact.

## **DIRECTIONS**

- **Concrete Cleaning:** Apply GREASE BUSTER to the affected area and let it sit for two minutes. Agitate with a deck scrub brush and rinse with water to flush away dirt and cleaner. Reapply for deeper cleaning. For lighter cleaning, dilute GREASE BUSTER up to 40:1 with water.
- **General Cleaning:** Dilute with 5-10 parts water. Spray or wipe on. Rinse or wipe clean.
- **Wax or Floor Finish Removal:** Dilute with 1-2 parts water. Apply with a mop, rinse thoroughly, and allow the floor to dry.
- **Laminated Countertops:** Dilute with 20 parts water. Spray or wipe on. Rinse or wipe clean.
- **Automatic Floor Scrubbers or Pressure Washers:** Dilute with 10-20 parts water. Rinse all equipment thoroughly with water after use.
- **Machinery, Motors, and Equipment:** Dilute with 4-10 parts water.

## **BENEFITS**

- Superior cleaning for even the most challenging surfaces.
- Biodegradable, making it an environmentally responsible choice.
- Non-flammable.

Availability:

12 X 1 litre

bottles 4 X 4 litre

jugs 12 litre pail
