

SUPER SOLVE

Industrial Cleaner/Degreaser

SUPER SOLVE is a blend of natural citrus terpenes and surfactants that provides superior cleaning and degreasing. It is suitable for cleaning all metal parts and machinery, engines, brake parts, and other oily, greasy, dirty parts.

SUPER SOLVE is exceptional for cleaning all types of stubborn stains, heavy-duty scuff marks on wallpaper, very heavy wax build-up, etc.

It is an excellent replacement for conventional safety solvents. It biodegrades quickly and contains no chlorinated solvents or other substances that may damage the environment.

Although SUPER SOLVE dries quickly and leaves no residue, it may also be flushed with water to aid the removal of heavy soils that have been loosened or dissolved by the solvent action.

BENEFITS:

- Powerful cleaning solvents provide exceptional cleaning
- Get excellent results with minimum effort and time.
- Contains no ozone depleting substances
- Environmentally responsible choice.
- Safe for the user
- Moderately fast drying
- Slow enough to clean effectively
- Quick enough to enable efficient productivity
- Pleasant odour
- Good operator acceptance
- Non-staining
- Leaves no residue
