

Drain Master

HD GRANULAR DRAIN OPENER

DRAIN MASTER HD GRANULAR DRAIN OPENER is designed to clear the most stubborn clogs in drains. It is very effective clearing clogs caused by build-up of hair and dirt entrained therein.

This makes **DRAIN MASTER HD GRANULAR DRAIN OPENER** particularly useful in hospitals, health clinics, hair salons, and athletic facilities.

In medical facilities where silver nitrate often contributes to clogs. **DRAIN MASTER HD GRANULAR DRAIN OPENER** is the product of choice. It breaks down the silver nitrate by-products and hair. The most popular drain openers are strong acids. These are dangerous to handle and may contribute to foul odours and fumes. The granular drain opener is not acidic and avoids these potential problems.

Regular use will eliminate the formation of clogs and expensive calls for a plumber.
