

Foam It

Foaming Carpet Cleaner and Deodorizer

This product attacks spots, stains and odours in two ways. First, by a new unique chemical system that dissolves and suspends the embedded foreign matter. And secondly, by enzyme-generating bacteria that breaks down organic residues thereby eliminating stains and odours. Effective on spots caused by coffee, milk, wine, blood, vomit, urine, feces and other mishaps.

Directions: Shake can. Invert and spray carpet from about 24 inches. For best results, dampen stained area with a wet sponge or cloth. Spray foam over the entire spot. Allow foam to be absorbed into carpet fibers. Rub spot with a damp sponge or cloth. For stubborn stains, repeat process. For severe organic stains and odours, cover the foam with a damp towel. By keeping the area moist the bacteria-producing enzymes will continue working longer.

Note: Always test product in a non-conspicuous area before using.
