

QUICK-STRIP

Non-ammoniated Floor Stripper

QUICK-STRIP is a top-notch stripper designed for all types of floor finishes. When mixed with warm water and applied to the floor, it quickly starts breaking down old wax and finishes. Unlike traditional strippers, QUICK-STRIP is non-ammoniated, offering a more pleasant fragrance and enhanced safety for users.

It effectively lifts even the most stubborn, darkened acrylic polymer finishes, often without the need for scrubbing. Using a floor machine with a black or brown pad can accelerate the process, particularly on larger surfaces.

As QUICK-STRIP works, it dissolves the old finish, creating a thick slurry that is easy to mop up and rinse away.

Suitable for use on vinyl and asbestos tiles, quarry tile, terrazzo, ceramic tiles, vinyl sheet flooring, and virtually any hard surface, QUICK-STRIP is a versatile solution for floor maintenance.

Availability
4x4 litre jugs
20 litre pail
205 litre drum
