

# Arena Floor Flex

## *Cleaner for Rubberized Floors*

Arena Floor Flex is a unique specialty product that gives rubberized arena and athletic facility floors a brand-new look. Removes deeply embedded soils and restores colours to their original brilliance. Also excellent for asphalt, vinyl, and plastic surfaces.

**Arena Floor Flex** is very concentrated and can be diluted up to 30:1

### **Application:**

#### *Deep cleaning of arena floors:*

1. Dilute 1 part Arena Floor Flex with 4 parts water, mop on and allow to sit for 1 minute.
2. Agitate lightly with deck brush or soft scrub pad on a floor machine.
3. Mop up slurry or use wet vac. Rinse with clean water.
4. An automatic scrubber can be used to agitate and then remove the cleaning solution.

#### *Maintenance Cleaning:*

1. Dilute 1 part Arena Floor Flex with 20 parts water.
2. Mop on and allow to sit for 1 minute.
3. Mop up or use wet vac.

#### *Maintenance Cleaning with Automatic Scrubber:*

1. Dilute 1 part Arena Floor Flex with 20 parts water, add to the tank on the machine and proceed to clean floor.
2. If the floor is very dirty, mop first, allow to sit for 1 minute and then remove with auto scrubber.
