

# Safe Descaler

## **Descriptions:**

**Safe Descaler:** is a descaler built specifically for galvanized metal cleaning. This product is designed to safely remove lime deposits or water scale from water lines and galvanized pipe fittings/reservoirs where stronger, acid-based descalers would degrade the metal.

## **Directions:**

Apply this product to the soiled area and let it sit for 3-6 min, rinse and repeat if necessary. The length of contact time varies depending on the severity of the build-up. Always make sure there is sufficient air circulation when using this product.

## **Benefits:**

Easy to use  
Biodegradable- Environmentally responsible choice  
Safe for the user  
Pleasant odour
