

EXTRACTO

*Carpet Cleaning Fluid
for
Hot water extraction systems*

EXTRACTO is an excellent cleaning fluid for use in all hot water extraction cleaning systems. A special additive also allows it to be used as a pre-spotter.

EXTRACTO contains enzymes that promote natural, bio-enzymatic reactions that aid in cleaning the most difficult stains. It is effective for cleaning pet stains, vomit, and other objectionable stains.

BENEFITS

- Powerful, concentrated cleaner for use in all hot water extraction equipment
- Removes deeply embedded soils and stains from carpets
- Brightens dulled colours in soiled carpets
- Enzymatic action improves cleaning and helps carpets stay cleaner, longer
- Will not discolour or shrink carpet
- May be used full-strength as a pretreatment and as a spot remover

DIRECTIONS

Dilute Extracto with up to 60 parts water in the solution tank of the extraction cleaning machine. A more concentrated solution may be required for heavily soiled carpets. Some machines require Extracto to be added at full strength to the concentrate tank and the machine itself proportions the correct amount to be applied.

AVAILABILITY

12 X 1 litre bottles
4 X 4 litre jugs
20 litre pail
