

Koil Kleaner

*With Bio-Enzymatic Action,
Powerful Foam Action, Non-Acid, No Harsh Fumes*

Powerful, thick, clinging foam which removes dirt, lint and grease from coil fins and other hard surfaces. Portable aerosol features a strong directional spray which helps force foam into coil air spaces. Water-based foam creates no harsh vapors and leaves a fresh scent. The enzyme-producing bacteria will work to break down organic deposits responsible for odours.

Use On: Radiators, roof heating and cooling units, wall and window units, ventilators, dryers, ice machines and refrigerators.

Directions: Before using, protect all electrical equipment and parts with plastic or aluminum wrap. Spray area thoroughly with penetrating and holding foam. Foam breakdown and dirt absorption indicates when surface may be flushed clean. For stubborn build-up a repeat application may be necessary.
