

LED Trashion Fashion Craft-A-Thon

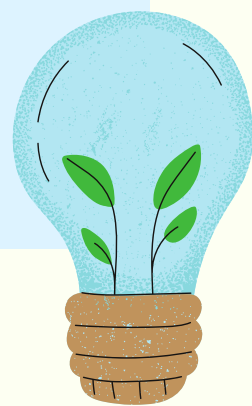

INSTRUCTION SHEET

Overview:

Goal: Repurpose old materials and turn it into a practical product.

Product must be made from old materials (assisting material like paint, string, paper is allowed)

LED officers will score each submission out of 100 points (total can exceed 100 if there are BONUS points) and the top winner will receive a **scholarship of \$300.**

1

Gather trash from your home to use as supplies and bring to camp

2

Students and instructors gather materials

3

Set up your stations!

5

When finished, submit to sophiaqin99@gmail.com and include student's name, grade level, and their product's name!

4

Work on project independently for about 2 hours including breaks

Optional:

Take progress photos OR a time-lapse video for **BONUS +20 points**

Write a paragraph explaining the final product, design process, project takeaways, etc. for **BONUS +20 points**

Record a video explaining the final product, designing process, project takeaways, etc. for **BONUS +40 points**
