

Ice Cream

I love ice cream because you can add different toppings, there is so many flavors, and it is refreshing on a hot day.

I adore ice cream because you can add different toppings. There is sprinkles, chocolate chips, and so many others. Toppings with ice cream makes such a wonderful blend. Once, I went to an ice cream store and they had so many delicious toppings so I just put all of them into it. I just love ice cream with toppings!

I love ice cream because there are so many flavors. There is strawberry, vanilla, and chocolate. They are all so tasty and so good. I went to an ice cream shop and they had over 30 flavors! I love all the different flavors.

I especially love ice cream on a hot day. When I eat it, it is so refreshing. It cools me down really fast. One time on a hot summer day my family went to the ice cream shop. After I ordered my ice cream, I ate it and the coolness traveled through my whole body. I love ice cream on a hot day.

Clearly, I love ice cream and I wish I could eat it every day!
