

# Interpreting Remainders and Quotients 1

Don't forget to write that you used just the quotient, just the remainder, or both to find the answer.

<b>1</b>	A bakery is packaging cookies into bags of 8 cookies. The baker has 154 cookies. How many complete bags of cookies can be made?	
		I used _____ to find the answer.
<b>2</b>	A sewing class has 205 yards of fabric to make quilts. Each quilt requires 7 yards of fabric. How much will remain after all the quilts are made?	
		I used _____ to find the answer.
<b>3</b>	There are 139 fourth grade students going on a field trip. The school is using vans that can hold 9 students. How many vans are needed for the field trip?	
		I used _____ to find the answer.
<b>4</b>	Ms. Zamora needs 90 notebooks for the school year. The notebooks are sold in packages of 4 notebooks. How many packages of notebooks does Ms. Zamora need to order?	
		I used _____ to find the answer.
