Math Facts

because of the test

- ★ NO SPELLING
- ★ NO WORD HUNT
- ★ NO WORD POWER
- ★ NO READING LOG/READING
- ★ MATH WILL BE DONE IN CLASS AND PLENTY OF TIME WILL BE PROVIDED TO FINISH SO IT SHOULDN'T INVOLVE HOMEWORK.

Thank you!

I was overwhelmed with all the wonderful holiday gifts you gave me! And the class present of gift cards to Applebees was so appreciated! I can't thank you enough. I felt VERY spoiled!

Survival Test

The big unit test will be Friday.

Everyone has a study guide to help you know what to study.

Also, the Test Support link on the website has the Survival Test link which is active. This will have the study guide of course. But it will also have more details along with lots of specific help and hints that will be on the test.

IMPORTANT:

The preparation for all the test sections will be done **AT SCHOOL**. So the study time at home is about reviewing what you did in class.

You will need to take home your Background Sheets each night and bring them back to class each day. You should also make sure to take home all the study material and resources that we created together at school. **Get your agenda signed each night to confirm that you studied.**

Remember, each day we will discuss together what the "evidence" for studying will be. You should write this in your agenda each day. **You need to bring this evidence to school each day.**

Acorn Harvest Festival

The Survival test will be done on FRIDAY morning. Then,, it is time for **FUN!**

We will be having our Acorn Harvest Festival after lunch! You worked hard for this!

You earned enough Survival Points for food and games. That included lots of optional work on extra credit projects. I am so, so impressed!

Woo Hoo!
