California Regions Test

We will have our first social studies test **on Friday**. A California Regions Study Guide has been provided to help your child study for the test. Please make sure to take home the student guide each day. All the test questions will come from the information in this packet. "Test Support" on the website has been activated. Here you will find copies of the study guide and student guide. You will also find a blank map of California to help you practice writing features and cities down. A sheet is also posted to help you know what locations you should practice for the map. It is required for you to make flashcards to help you study. You should also practice using the map. You need to bring evidence that you studied to school each day. **PARENTS: PLEASE SIGN THE AGENDA EVERY NIGHT TO CONFIRM HOW MANY MINUTES YOUR CHILD STUDIED.**

Because of the test. . .
