Fri.

Math Facts

Nothing else. Woo hoo!

Coding Club

Interested in coding? Did you know you can join a virtual Coding Club? A flyer was sent home via Parent Square with more info. Deadline to sign up is THIS Wednesday.

Survival Extra Credit

It is possible to earn extra "Survival Points" for our Survival Simulation. This can help us to earn more fun for our Acorn Harvest Festival. Ideas are in the back of the Survival Student Guide. **This is NOT required.**

DISASTER DRILL AGAIN

FYI: We were rained out for the last scheduled Disaster Drill. It has been rescheduled for Thursday.

Island of Blue Dolphins TEST on Friday

We have finished reading the book, and now it is time to get ready for the test! Please check out Test Support for the Island of the Blue Dolphins test on our website.

This week we will spend time together in class choosing the 7 main plot events (rising actions, climax, and the resolution). We will also focus on main characters, setting, main conflict and resolution. Also, we will prepare to write about a theme for the book and about how Karana changed throughout the book. Please check out the examples for both of these essays on the class website. Each night the students will be given a specific way to study for the test. They will bring the required evidence that they studied to school each day. **Along with this evidence, all students must get a parent signature Monday, Tuesday, Wednesday, and Thursday night to verify that s/he studied for the test.**

Because of the test. . .

No Spelling Words

No Word Power or Word Hunt

No Reading Log

Less math
