Mrs. Eller

Week at a Glance

Mon.

Math Facts

Spelling: Write words 2 times in ABC order

Math: Lesson 6.7

Reading: Check agenda/reading contract

Tue.

Math Facts

Reading: Check agenda/reading contract

Math: Lesson 6.8

Wed.

Math Facts

Reading: Check agenda/reading contract

Thur.

Math Facts

Reading: Check agenda/reading contract

Spelling: Get quizzed! Have mom or dad grade it. **Don't forget the parent signature!**

Math: Chapter 6 Review Test. **Go over this with your parents and get a parent signature.** If something is tricky, review it together. Remember, this means the real test is tomorrow!

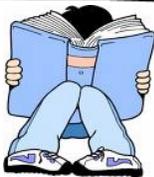

Fri.

Math Facts,

READING LOG turned in.

HAVE YOU WORKED OUT A PLAN TO REMEMBER SIGNATURES? WHAT WORKS BEST FOR YOU?

Book Clubs

We are starting a new Book Club!

We will pick our new book on Monday morning. We will get a new reading contract. And we will choose our new book club members.

We will go back to reading our daily chunks and writing jot dots. The goal is to get the jot dots for the week's "chunk" done by Wednesday evening. Time will be provided in class.

However, finishing this IS CONSIDERED homework if it's not finished at school. On

Thursday we will meet as book clubs to choose the Top 4 events and collaborate as we write the 4 post-its. Make sure you're prepared. The book club meeting will be Friday.

No Excuse Words

Got Rocks?

We are going to be learning about rocks and minerals! We are going to become official rock hounds. LOL! This involves hunting for rocks! We will be doing this for awhile!

This week we will check out my huge rock collection. We will discuss and observe how rocks are different from each other. We will observe that rocks can be: smooth vs. rough, shiny vs. dull, soft vs. hard, heavy vs. light, many different colors, many different patterns. Also, it's possible to have 3 black rocks but they are NOT the same because one is hard, another one is soft, and another one is shiny. This can get a little tricky.

Feeling worried? You can check in with me and show me your rocks throughout the week, and I can give you feedback on what you have collected.

IMPORTANT:

Make sure you are NOT collecting pebbles. We are looking at a lot of those this week to see how to recognize pebbles. Also, on the website are posted pictures of pebbles to help you understand when something is a pebble, not a rock that's allowed in your collection. We will also discuss this in class. I have many actual rocks and pebbles we can touch as we learn how to recognize a pebble.

Three rocks will be due on Monday (3/2).

I will be providing a blue box to hold your collection. Each week you will put your NEW rocks in a ziplock bag. Once the rocks are approved, you will add it to your blue box. You will be earning points each week towards your science grade this trimester.

FYI: LOTS OF NEW INFORMATION IS ON OUR WEBSITE LINK! CHECK IT OUT! (GEOLOGY LINK)

Field Trip

As you know, we have a field trip to Mission San Juan Bautista scheduled for March 27. A **HUGE THANKS** for everyone who had filled out the permission on Parent Square. **Also there is a \$5 cost that you can submit on Parent Square or send in as cash or check. Also, we NEED CHAPERONES.** Please let me know if you can help out!
