Book Clubs

We are reading the second "chunk" for our Book Clubs this week.

Please check your reading schedule in your reading binder.

Post-its

Please remember that when you are writing your post-its, it needs to be ideas that are "under the ocean." We have discussed this all year.

This became a little more challenging because starting with the last book, the entire class is not reading the same book. I meet with all the book clubs and give specific support. But the whole class lessons aren't possible. This makes it even more important to get support each week as you read. Parents, if it is possible for you to read the book your child is reading, it will help a lot. I know you are all very busy. I usually read the books by downloading an audio version and listen when I'm working out. Just a thought.

PICTURES

Picture Day is on Wednesday. Please bring your order or submit online. The order form was sent home in the MESH.

Picture Day!

Got Rocks?

Please fine 3 more rocks by Monday. This week we will be identifying sedimentary rocks in our collections.
