

CAPABILITY STATEMENT

CNC PRODUCTS

DIFFERENTIATORS:

Latest Fiber Laser Cutting Equipment
 Latest Computerized Press Break
 245 Years of Combined Fabrication Experience
 In house Engineering Staff
 Prototype Development
 Small Run Availability
 Custom Colors Available
 12' 175 Ton Press Break
 30 Ton Turret Punch Press

CAPABILITY STATEMENT:

CNC Products' metal craftsmen and experienced welders are trained in all processes of sheet metal, angle and bar fabrication allowing us to preform and excel while working on tight schedules to meet our deadlines and customer's demands. CNC offers complete customer ready assembly and packaging services. We offer in house drafting as well as engineering services. We can assist in product prototype and development. With over 30 years in business we value our customer's needs.

CORE COMPETENCIES:

Metal Fabrication	Welding
Design and Engineering	Spot Welding
Prototype Development	Resistance Welding
Laser Cutting	Metal Shearing
Metal Bending	Metal Grinding
Metal Forming	Abrasive Blasting
Metal Punching	Powder Coating
Metal Rolling	Finishing
	Packaging
