### Aircraft Rental Rates

Aircraft rental charges are based on Hobbs time. Unless otherwise noted, all aircraft rental rates shown are wet (oil and fuel included). Minimum rental charge is 1.5 hours for aircraft reserved for 3 to 5 hours, and 3 hours for aircraft reserved for 5 hours or more. Cancellations made less than 24 hours before reserved flight will be charged a fee equal to 50% of the rental period. Renters are required to carry renter's insurance and are responsible for all damage to aircraft. Note: If you book as a block, you will be charged for the full block time.

### Instructor Rates

We highly recommend that students use "block" instruction in half day or full day blocks. We find that this method of flight instruction is more conducive to creating an effective instructional period. Students should expect to start off every block with a pre-flight briefing discussing the day's maneuvers, weather challenges, and other ground material. After the flight, a post-flight briefing will be used for a review of the flight, and a critique of student performance.
