*Your Vision, Our Expertise*

High density foam

Unique waterproof mono shell construction

Built in thermal rubber seal

0.45 Steel skin with anti corrosive protection

Built in finger protection

Full length triple fold reinforcing for hinges

## SUPERIOR INSULATION FOR YOUR GARAGE

The Danmar Thermopanel Doors are an insulated garage door designed to last all year round. They have an industry-leading R Value of 2.2, significantly reducing thermal transmission by up to 30%.

This means it will offer the ultimate results in keeping the temperature cooler in the hot months, and warmer in the cooler months. The insulation also acts as a noise barrier reducing outside noises from your home.

## WHY CHOOSE THE DANMAR THERMOPANEL DOOR?

### World Class European Quality

Danmar Thermopanel doors are European engineered by the world leader in insulated doors. They provide countless benefits including:

**Thermal Efficiency**  
Significant reduction in thermal transmission with R Value 2.2.

**Noise Reduction**  
The insulation acts as a sound barrier, reducing external noise.

**Fire Safety**  
Optional Fire rated seals can be integrated, providing an added layer of safety.

**Durability**  
Each panel is built with a 0.45mm outer skin, eliminating oil canning.

**Sleek Design**  
The frameless interior appearance gives the doors a more contemporary, minimalistic look inside your garage.

**Finger Protection**  
Built in finger protection.
