Media Wall Planning Checklist

Before building a media wall, proper planning makes a huge difference. This checklist helps homeowners organize ideas, measurements, and design preferences before starting a project. Use this guide to help plan your space and avoid common mistakes.

1. Wall Measurements

- Measure total wall width
- Measure ceiling height
- Check for windows, vents, or outlets
- Take photos of the space

2. TV Planning

- Choose TV size
- Decide mounted height
- Consider soundbar placement
- Plan gaming systems or streaming devices

3. Fireplace Planning

- Choose fireplace size
- Decide linear or traditional style
- Check heat clearance requirements

- Plan spacing between fireplace and TV

4. Lighting & Design

- Choose LED lighting style
- Decide on warm or color-changing LEDs
- Pick wall finishes (slats, stone, paint, panels)
- Choose cabinet color and style

5. Storage & Functionality

- Need floating cabinets?
- Need shelving?
- Need hidden storage?
- Plan router and cable box locations

6. Electrical & Wiring

- Plan hidden outlets
- Plan cable routes
- Check existing electrical access
- Consider smart lighting controls

7. Budget Planning

- Set overall project budget

- Decide must-have features
 - Decide optional upgrades
 - Leave room for finish upgrades
-
