

8<sup>th</sup> Sew your side seams. Start with your gown turned right side out. Line up the seam of the sleeve. On one side of this seam you will have lining, to line up and pin and on the other you will have main fabric to line up and pin. You have a "U" shape. Sew from either the lining or main fabric side around the "U" shape at the sleeve and down the other side. Do the same for the other side of the gown.

9<sup>th</sup> Clip the "U" shaped area.

10<sup>th</sup> Line up, pin the hem and stitch all the way across the bottom of your gown. Clip the corners and turn right side out and press.

11<sup>th</sup> Edge stitch or hand stitch the opening closed.

12<sup>th</sup> Stitch a small piece of Velcro to hold the gown closed.

**Thank you for making an Angel Gown.**
