Who We Are

The Potting Shed Garden Services is a prominent garden maintenance specialist located in Wolverhampton, West Midlands.

The potting shed has rapidly evolved since its 2016 inception as a single van garden services provider in Tettenhall, Wolverhampton.

Today, we offer a comprehensive range of professional and successful large garden maintenance and commercial services. Our committed team prioritizes safety and well-being, emphasizes eco-friendly practices, and ensures environmentally responsible waste management.

These values form the foundation of the high-quality, professional service we provide to our clients.

Why choose us?

All fully insured

All our own serviced equipment

Experienced horticulturalists

“We have been using The Potting Shed for over a year now and our 17 acres of grounds haven’t looked this good in a long while.”

“They are flexible, open to helping and rectifying many different types of ground care & landscaping issues. As a smaller local company they are easy to communicate with and are always open to different ways of working throughout the seasons to best help both our gardens and our finances”

Paul Williams - Wergs Hall Management

Our Services

At The Potting Shed, we collaborate closely with clients to customize our services, creating and sustaining outdoor spaces that instill pride.

Whether you need a one-time cleanup, redesign, lawn care, or ongoing maintenance, we can assist.

With a wealth of experience, we've successfully served diverse clients, including large estates, business parks, and more. Whatever your needs, our skilled and fully trained staff are equipped to maintain and manage your external landscape in Wolverhampton and the surrounding areas.

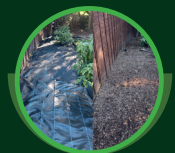

Services we offer include:

Grass Cutting
Amenity & Formal

Shrub & Hedge Pruning

Weed Control

Hard Surface Cleaning

Litter Removal

Leaf Clearance

Gritting and Snow Clearance

Our Commitments

Health & Safety

At our organization, the safety and well-being of our staff is paramount. To ensure this, we have entrusted Peninsula to handle all our HR and Health & Safety requirements. Their expertise and dedication to safeguarding our workforce align perfectly with our commitment to a safe and supportive workplace.

Eco-friendly

We are actively transitioning from petrol-powered tools to battery-powered alternatives and aim to complete this shift by 2025. Currently, all our long reach hedge cutters and pruners are already powered by batteries, reflecting our commitment to sustainable and eco-friendly practices.

Waste Management

As responsible waste carriers, we take our duty to track the destination of our green waste seriously. To guarantee compliance with environmental standards and the proper disposal of our waste, we rely on Cartwrights Waste Disposal. Their trusted services enable us to fulfill our commitment to environmentally responsible waste management.
