COMFORT LINE HYDRONIC DUCTED FAN COIL UNIT

The Comfort Line ducted units are designed for installation in ceiling voids to heat and cool spaces in large businesses, hotels and healthcare facilities. Not only does it combine the economic benefits of installing and running the centralized production of hot and chilled water, it also allows individual temperature control in all rooms.

NEXT DAY DELIVERY? MUSIC TO MY EARS

FLOWAY AIR HANDLING UNIT

Floway is a Plug & Play dual-flow air handling unit that draws clean, fresh air indoors with 80% less energy on average than that needed for air conditioning. Floway is both compact and quiet and comes equipped as standard with high-tech components (EC motor, latest-generation heat recovery systems, built-in control, etc.). Once connected, it delivers high-efficiency heating and cooling (high air and thermal efficiency) and ensures the best level of indoor air quality required. Talk to us about your project today.

Floway contains a built-in control unit that runs all the components and features an intelligent design that incorporates Plug & Play technology for easy installation, operation and servicing.

Last but not least, Floway comes in three models (Classic RHE and Classic, Vertical and Ceiling-mounted) for optimised installation.
