-

Service Notes / Scope of Service

- Services are provided on-site whenever feasible. Some repairs that require lifts, heavy equipment, or specialized tools must be completed at a garage. Any repairs or parts needed at a garage are the responsibility of the fleet company.
- Parts are billed separately unless otherwise noted. Subscription plans cover labor and preventive maintenance only. Minor repairs performed during subscription-plan preventive maintenance visits are included up to a total of \$20 in labor and parts per visit.
- All pricing and packages are listed per vehicle.
- Diagnostic services include full system scans, safety checks, and written reports when needed.
- Vehicles with issues outside the scope of mobile service — including repairs requiring lifts, major mechanical work, or advanced specialty tools — may need to be taken to a garage.
- Transmission services are not performed. This includes transmission fluid changes, flushes, internal repairs, and diagnostics beyond basic visual checks.
- Any additional issues discovered during service will be communicated before work is performed.
- Roadside assistance and emergency roadside services are not included. All services must be scheduled and performed at the customer's location.
- Towing is not rendered under these plans. Any towing required is the customer's responsibility.
- All services provided under these plans apply only to cars and light trucks. Heavy-duty or commercial vehicles are excluded.
- All service disclaimers and terms are available at <https://chmobileautotech.com> (Forms & Disclaimers)
