Eileen L. Bleyer
Millinery

“ *Every Women is more beautiful in a hat, selecting the style and color that fits her personal taste and the occasion makes all the difference.* ”

Eileen L. Bleyer

Art and fashion design have been a passion of mine for as long as I can remember. I was inspired by my Grandmother and Aunts who always stepped out in the most fashionable dresses, stunning hats and always wore gloves.

I began designing clothes for my dolls at 6 yrs of age and was awarded first place in a state wide evening gown design contest at the age of 16.

I studied art and design through high school and continued to design and make my clothes over the years. Now that my family is grown, my passion for designing and my love of elegant hats has opened the door to the creation of my line of one of a kind couture hats and fascinators.

Hats and garments are available for direct purchase.

Special thanks to the designers of the garments I selected to showcase my hats, the various makers of the untrimmed hat bases and other lovely items used in creating my hats.
