## Why Use R365 Accounting?

### AUTOMATE ACCOUNTS PAYABLE

Modernize your entire AP process from invoice capture to approval with accurate, fast, and secure payment options.

### SECURELY CONNECT YOUR BANK

Direct integration with your bank lets you manage all financial transactions in real-time with a single click.

### BUDGET AND FORECAST SMARTER

Drive your restaurant group toward its full potential with the ability to accurately budget for multiple locations simultaneously and adjust as needed.

### TAKE YOUR FINANCIAL PULSE

See your restaurant group's financial health with out-of-the-box or custom reports at the frequency and detail you need to make data-driven decisions.

## Key Benefits

### ELIMINATE MANUAL LABOR

Accurate, up-to-date P&Ls and other reports are available with the click of a button, eliminating days and weeks of work that once produced unusable results.

### SCALE WITH EASE

Integration and automation empower your accounting department to do more in less time with more efficient resources, paving the way for growth.

### EASILY TRACK FIXED ASSETS

Track the lifetime costs of all your fixed assets, from real property and technology to kitchen equipment, furniture, and more.

## Key Features

- ✓ Quickly execute and record intercompany transactions
- ✓ Reconcile your books with a few clicks
- ✓ Automatically pull and distribute custom or out-of-the-box reports
- ✓ Automate payments and earn rebates
- ✓ Secure the entire accounting function

## See Why Our Customers Love Us

The intercompany is phenomenal. With multiple companies in Canada that do a lot of intercompany transfers, BLCO is now able to **condense transfers into one entry**, versus going in and out of multiple entities to ensure they're all in balance at the end of the month and year.

**Sarah Ballard**, Director of Finance  
BLCO Enterprises

It wasn't until we switched to Restaurant365 that we really understood how much of a pain point that core limitation of QuickBooks actually was. With Restaurant365, we simply choose the **13 four-week accounting cycle**, and we're off to the races. To get the information we need, we just click the period we want and it's all right there.

**Robert Madsen**, Former CFO  
DD Enterprises
