ABOUT US

PREMIUM DOCKS, COUNTLESS CONFIGURATIONS

Since 2006, CanadaDocks Inc. has produced the only formed aluminum complete bolt together Dock Kit on the market. The design, which was developed using automotive manufacturing techniques is one of a kind. Each truss is formed from a single sheet of marine grade aluminum eliminating the need for welded joints which often are weak points. The process of forming the sheet of aluminum allows us to use less material making the dock sections light and eco-friendly. Assembling our Dock Kits is a breeze. Putting together a section requires common household tools and little time. An entire dock can be constructed and installed in one day.

All of our dock components are produced and packaged in Canada at our ISO 9001 certified facility, where we maintain the highest standards of quality and workmanship. Our Dock Kits are packaged in 8' x 1' x 1/2' boxes allowing easy and economical transportation and shipping all over the world.

We stand by our docks and are proud to offer a limited lifetime warranty on all dock frames. We guarantee that our dock frames will last for generations giving you peace of mind when choosing a new dock for your waterfront property.

SERVICES

ASSEMBLY

The majority of CanadaDocks aluminum Dock Kits are designed to be assembled by the customer as a Do-It-Yourself Kit. However, if you prefer you can have one of our authorized dealers assemble the dock for you.

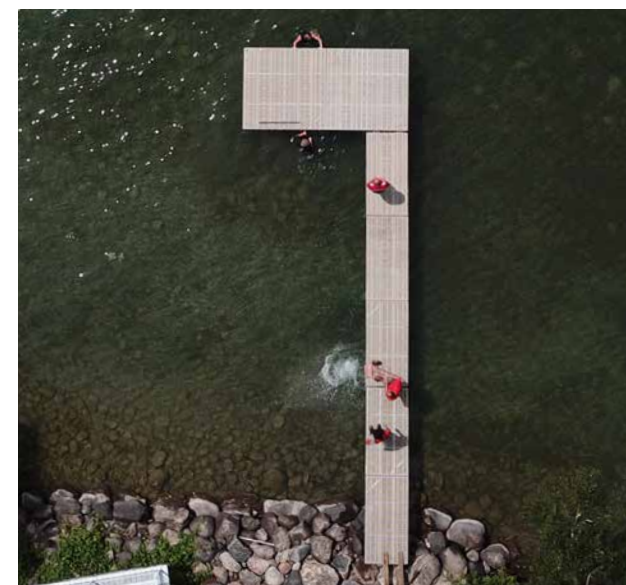

DELIVERY

As a Do-It-Yourself Kit manufacturer, we ship Dock Kits to our dealer network across North America and into Europe. The versatility of our dock system allows our authorized dealers to deliver our products to customers within their territory.

INSTALLATION

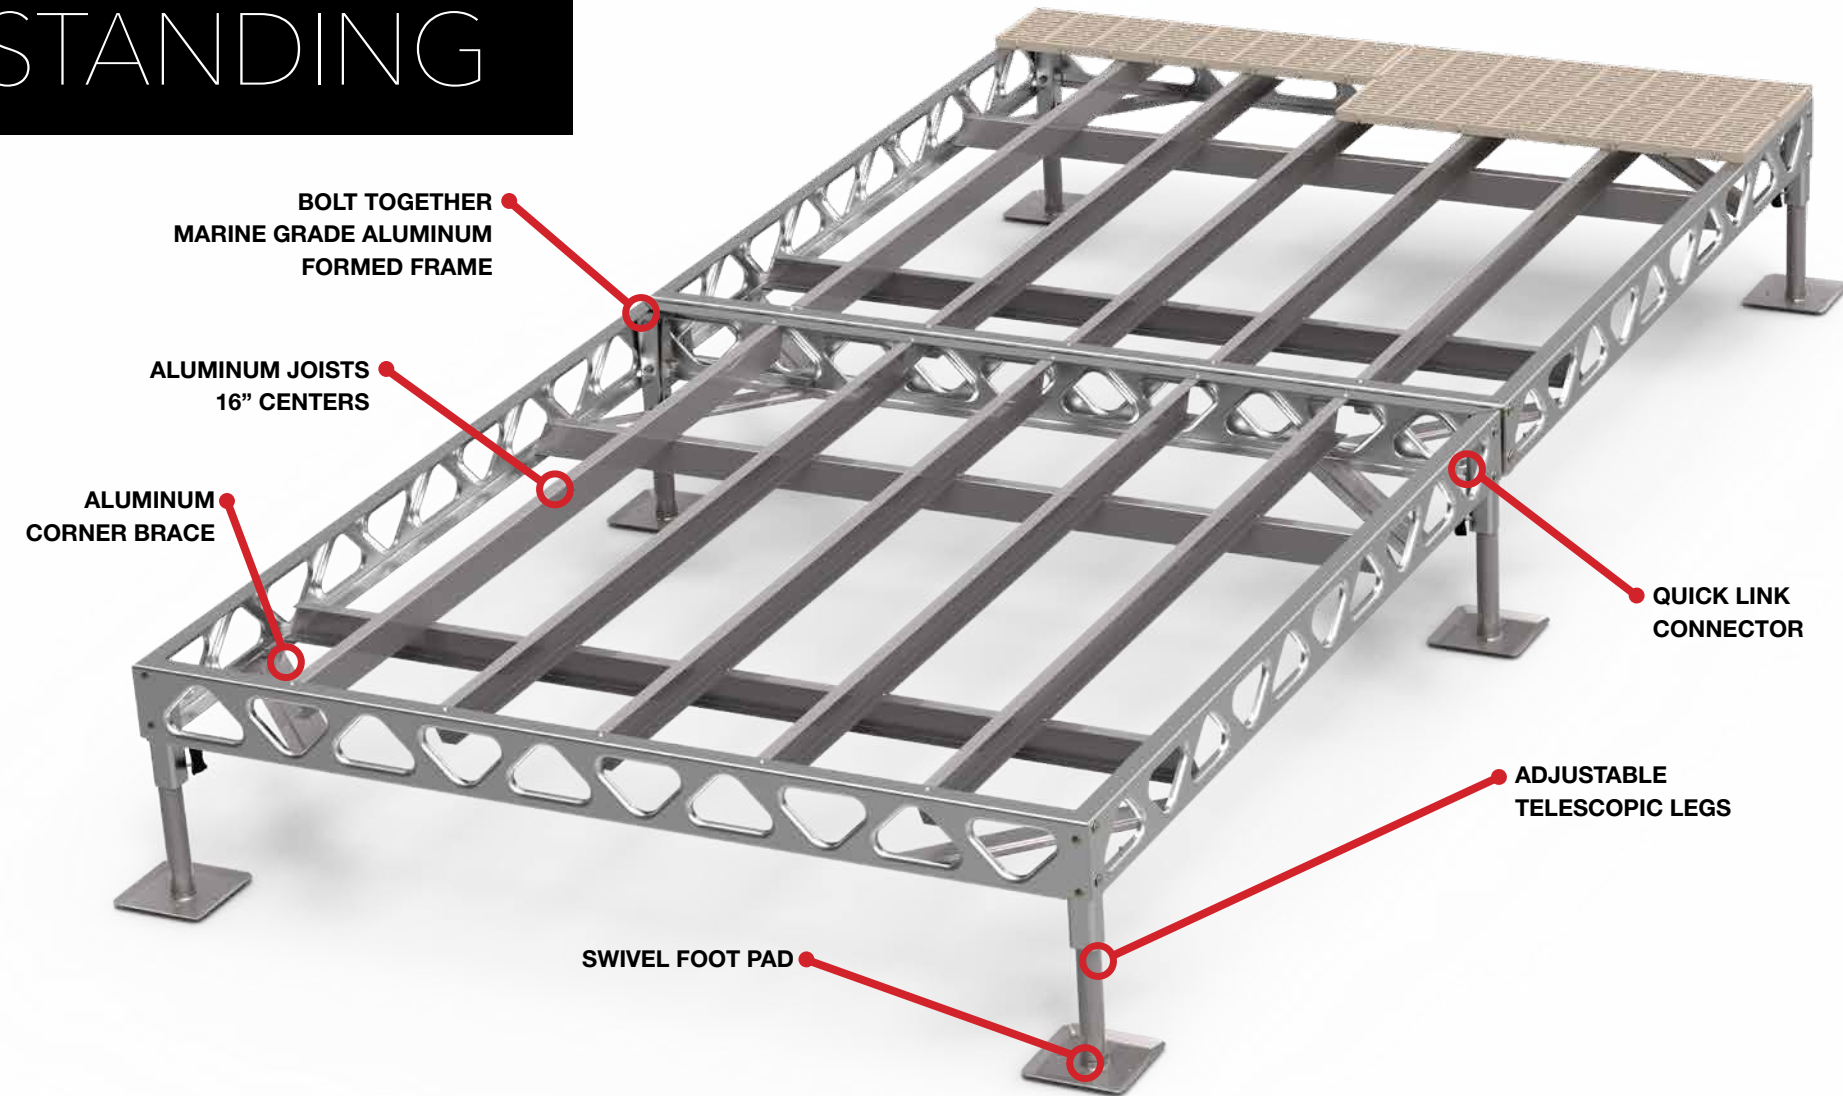

Our Dock Kits are designed to make installation and removal as stress-free as possible. All waterfronts are different, and some require the tools and expertise of an experienced dock installer. Our authorized dealers know our products the best and are eager to assist with the initial install of your new dock as well as seasonal installation and removal.

Find an authorized CanadaDocks dealer near you by visiting [CanadaDocks.ca/dealers](https://canadadocks.ca/dealers)

CORNER KITS

When designing our Dock Kits, we don't cut any corners. However, when our customers plan their dream dock, we encourage them to cut as many corners as they can with our 4' and 8' Corner Kits. The corners attach to our Standing Dock sections using the included hanging brackets.

TRANSITION KITS

Transition Kits are designed to provide an elegant transition from 4' wide sections to 8' wide sections and vice versa. Although this section is best used as a transition, it can also be used to add extra square footage to the end or side of your dock. The frame and decking come pre-assembled with only the legs or float needing to be installed.

FLOATING RAMP KITS

Available in 8' and 16' lengths (with extension kit) and 4' and 8' widths our Floating Ramp Kits are designed for easy connection from shore to floating CanadaDocks systems seamlessly and effortlessly with extra buoyancy. Each Floating Ramp Kit comes complete with a 4' or 8' float along with a hinge kit that easily attaches to any floating dock section. We offer Floating Ramp Kits with or without decking; however, we recommend purchasing the kits complete with decking to obtain the benefits of a non-slip, UV protected surface.

CanadaDocks Lifts are the perfect accessory for cottagers who are also boat lovers. Lifting your boat out of the water eliminates the chance of your boat sinking due to a dead battery or failed bilge pump. All CanadaDocks Lifts are manufactured using marine grade 6061-T6 aluminum rectangular tubing and come equipped with either an automatic brake winch or electric winch system, grease fittings with bronze bushings in all pulleys and adjustable legs.

ACCESSORIES

4' RAMP TRANSITION

Creates easier wheel chair accessibility and a complete look for your 8' x 8' or 4' x 8' dock ramp.

CHAIN RETAINER

Attached at the dock leg, the chain retainer allows for attachment of chain to anchor the dock.

HINGE KIT

Connects CanadaDocks aluminum docks and ramps.

FLOATING DOCK EXTENSION KIT

Kit that connects 4' x 8' and 8' x 8' floating docks together to create a rigid floating dock.

RAMP EXTENSION KIT

Kit that connects 4' x 8' and 8' x 8' ramps together to create a rigid ramp system.

OFFSET HINGE KIT

Connects CanadaDocks aluminum docks and ramps.

HANGING T-KIT

Allows attachment of standing docks in an T shaped configuration.

HANGING L-KIT

Allows attachment of standing docks in an L shaped configuration.

UNIVERSAL BASE

Our Accessory Base is designed to secure to our dock joists through the decking to make a solid base to hold an umbrella or bistro table.

ACCESS PLATFORM

Designed to help you get in and out of your canoe, kayak, etc. Works with standing and floating docks.

8' HANDRAIL

Utilizing triangle backing plates, the handrail fits 4' x 8' and 8' x 8' Dock Kits.

SAFETY GRAB RAIL

Easily connects to all Dock Kits. Assists getting in and out of your boat.

FLAG POLE KIT

Includes bracket, fiberglass pole and flag.

8" LEG EXTENSION

Can be used to extend CanadaDocks telescopic legs. Also available in kits of 4.

CACTUS BOARD HOLDER

Attaches to the side of any CanadaDocks dock section. The slots are designed to hold paddle boards, wake boards and water skis.

CANOE & KAYAK RACK

Convenient storage for canoes, kayaks, wakeboards and much more.

20" LEG EXTENSION

Can be used to extend CanadaDocks telescopic legs. Also available in kits of 4.

STORAGE BOX HOLDER

Attaches to the side of any CanadaDocks dock section. Designed to hold storage boxes of varying sizes.

STAIRS

Available in 4, 5 or 6 step configurations. Handrail sold separately.

FLOATING DOCK T CONNECTOR KIT

Connecting two or more 4' x 8' floating sections.

ACCESSORIES

CLEAT (red & white)
Fold down powder coated aluminum cleat.

SOLAR LIGHT POST
A solar light post that adds functionality and lighting to any dock.

STAINLESS STEEL 15° LADDER
Constructed with high grade stainless steel at a 15 degree angle with oversized plastic steps. Available in 3 steps.

ALUMINUM LADDER
Highly durable aluminum ladder with extra support and ease of use. Available in 3 or 4 steps.

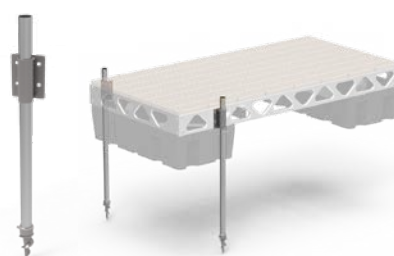

STANDING DOCK WHEEL KIT
Attach wheel kit to a standing dock to easily roll in and out of the water. Available in 4' and 8' lengths for 4' x 8' or 8' x 8' docks.

FLOATING DOCK WHEEL KIT
Attach wheel kit to a floating dock to easily roll in and out of the water.

VERTICAL BUMPER
Robust urethane vertical bumper with adjustable mounting channel.

STABILITY POST KIT
Stabilizes floating dock section using an auger.

CLEAT (polished aluminum)
Fold down aluminum cleat.

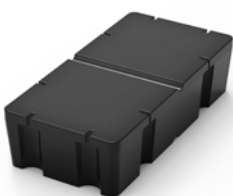

SOLAR LIGHT SAFETY RING POST
A solar light post that doubles as a hanger for a safety ring. Great addition to any dock.

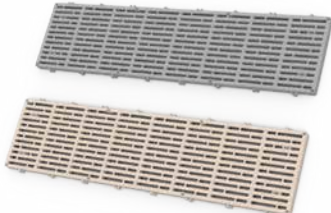

STAINLESS STEEL LADDER
Constructed with high grade stainless steel with oversized plastic steps. Available in 3, 4 and 5 steps.

ALUMINUM FLIP UP LADDER
Aluminum ladder that can be flipped up onto dock while not in use. Available in 3 or 4 steps.

4' FOAM FILLED EAGLE FLOAT™
The 13.6 kg (30 lbs) float has a 190 kg (421 lbs) buoyancy.

1'x4' THRUFLOW™ PANEL
Engineered polypropylene decking panel. Available in grey and maple.

P-BUMPER
Bumper available in beige, grey and white. Complete with UV and fungicide inhibitors.

150lb CONCRETE ANCHOR
150lb concrete anchor that can be used for standing or floating docks.

CLEAT (white)
Fold down powder coated aluminum cleat.

SOLAR DOCK LIGHT
Aluminum solar dock light comes with your choice of blue or white light.

STAINLESS STEEL FLIP UP LADDER
Constructed with high grade stainless steel with oversized plastic steps and flip up attachment. Available in 3, 4 and 5 steps.

3 STEP WHITE LADDER
White powder coated steel ladder that can be attached to a CanadaDocks dock.

8' FOAM FILLED EAGLE FLOAT™
The 29 kg (64 lbs) float has a 380.6 kg (839 lbs) buoyancy.

FLEXGUARD
4' and 8' lengths. Made to cover gaps between ramp and dock where hinges are exposed.

DOLPHIN CORNER BUMPER
Corner bumper, available in beige, grey and white. Complete with UV and fungicide inhibitors.

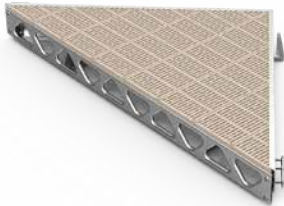

STANDING DEEP WATER STABILITY KIT
Designed to give stability to 4' and 8' standing docks with longer legs (anchoring still required).
