CAIS Earth Club Newsletter

April 2025

Trash Talk: Take a look at CAIS's 3rd floor hallway trash cans. How do you think this would affect our lovely blue marble that is very hospitable to life, Earth? This month, we are going to educate Kindergarten to 3rd grade students on how to sort their trash when throwing objects away.

CAIS Earth Club asks:

What is your favorite place to learn about conservation?

Ms. Sheppard's
Class
– Siobhan Butler

CA Academy of
Sciences
– Nina Synyanska

Botanical Gardens
– Brynn Co-Giang

School
– Carolyn Wong

School
– Kieran Ryan

National Parks
– Ryan Young

Muir Woods Hike: Last month (03/01/25) **CAIS** FSA went on a hike at Muir Woods. First, we went to the campsite to get ready for the 2-4 mile hike. We went down a long windy path with medium sized puddles. After that we went on a long flat passageway. After we went back up on the same path we went down and fortunately some people had hiking boots.

When we got back from the hike we had smores which tasted awesome. First, we would roast the marshmallows and then smush the marshmallows in between some graham crackers and chocolate. It was good. After that we played for a little bit and then some people went home and some people camped there. The hike was awesome.

Calendar:

- **04/21/25**
CAIS Earth Club will be doing a tree planting event. Earth Club will plant at least one tree during this event. This event will be taking place during lunch recess. Supervised by Ms. Sheppard/K-5th Science teacher.

- **04/22/25 → Earth Day!!**
CAIS Earth Club will be doing stations to help educate Kindergarten to 3rd grade students on topics related to the earth/conservation, such as trash sorting and all kinds of educating things.

By the way, did you know that April is National Financial Literacy Month?
