What Problems Do We Solve?

In the USA, 3.6 million heavy-duty trucks burn over
69 BILLION GALLONS
of diesel fuel annually, which
cost trucking companies over
\$263 BILLION DOLLARS!

**What if the US trucking
industry could
SAVE 10 to 15%
of those
\$263 BILLION DOLLARS
spent on diesel fuel!**

Introducing OUR Solution -
“Hydrogen on the Go™”

But what is Hydrogen?

HYDROGEN

IS GOD'S PERFECT FUEL!

A composite image showing the Sun on the left, the Earth on the right, and the Moon in the upper right. The background is a dark blue space filled with stars.

**Hydrogen fuels
our Sun!**

**And it's the MOST
abundant element
in our Universe!**

Wasted Diesel Fuel

Diesel engines waste 10% in unburned fuel.

Causing the
Black Soot &
Carbon Exhaust!

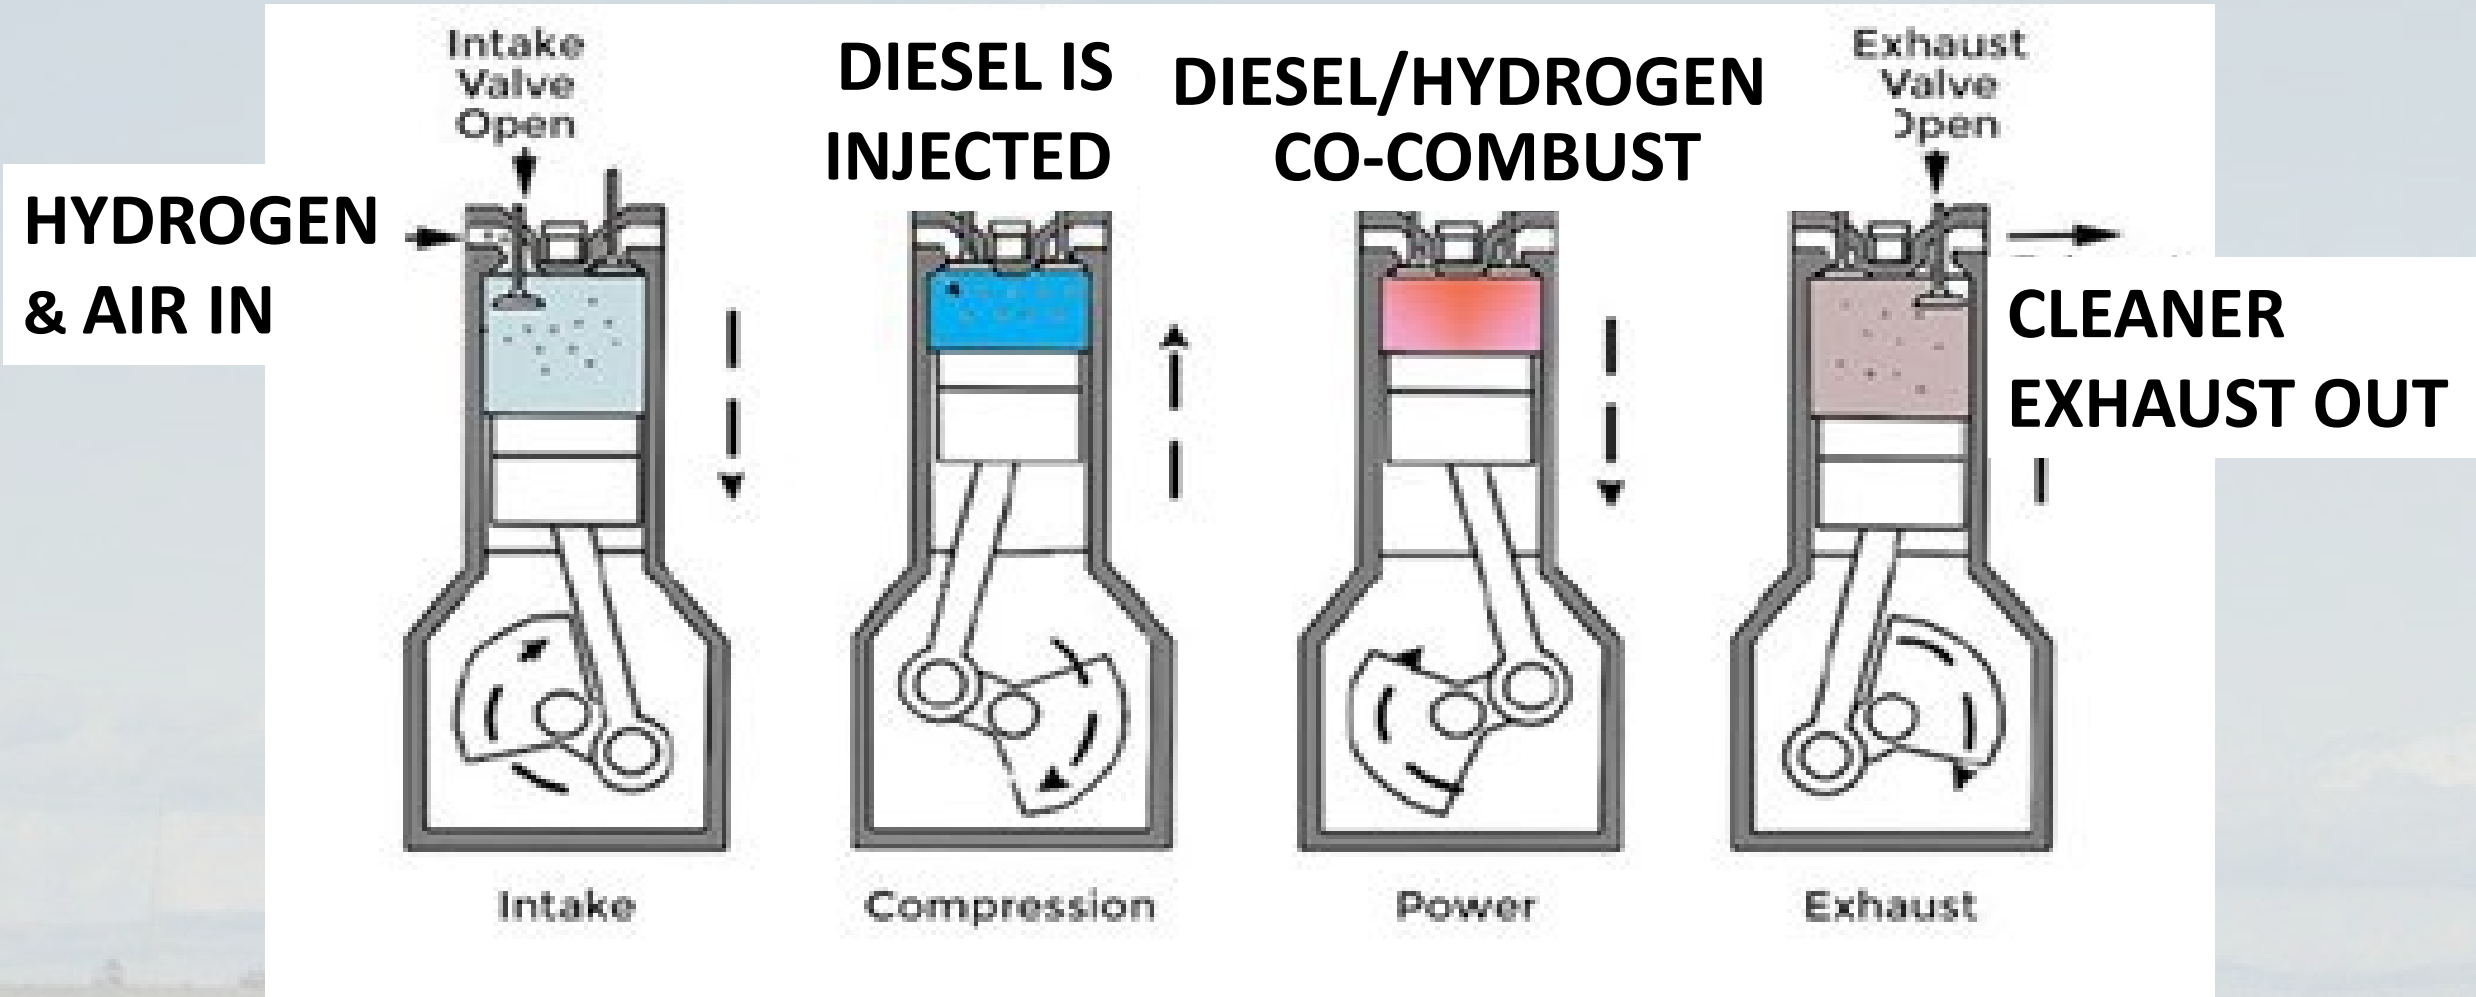

Hydrogen solves this problem by burning 10x
FASTER than Diesel fuel and burning 100% of the
Diesel fuel! Here's how our system works -

**Our System CREATES Hydrogen
while the Truck is IN MOTION!**

**But NO Hydrogen is made or stored,
when the engine is TURNED OFF!**

Our NEW Hydrogen mixes with AIR and then CO-COMBUSTS with the Diesel fuel!

Here are the BENEFITS!

BIG FUEL SAVINGS!

**MORE ENGINE
POWER!**

**A CLEANER
BURNING ENGINE!**

3 Patents

**CLEANER ENGINE

**CLEANER FUEL

QUICK PAYBACK!

Our Unit easily fits any Diesel Semi-tractor!

**DIESEL &

Its EASY to install and access!

Our Solution in Dollars & Cents

- Trucks travel over 100,000 miles per year costing an average \$1 per mile to operate.
- Savings of \$10,000 to \$15,000 per year equal \$50,000 to \$75,000 in 5 years. This buys a low-mileage used Semi-tractor!

This is REAL BOTTOM-LINE SAVINGS!

Our FIRST MAJOR SALE

Our first major sale is at Blessings of Hope Ministries in Lancaster County, PA. Blessings of Hope is a Christian non-profit organization committed to addressing the hunger problem in the USA, where 44.2 million Americans with 13.1 million children are food insecure!
