

The US Trucking Industry is in TROUBLE!

WHY?

The HIGH COST of Diesel-fuel!
For example, the Yellow Freight Co., founded in 1906, declared bankruptcy in 2023. 35,000 truck drivers LOST THEIR JOBS.

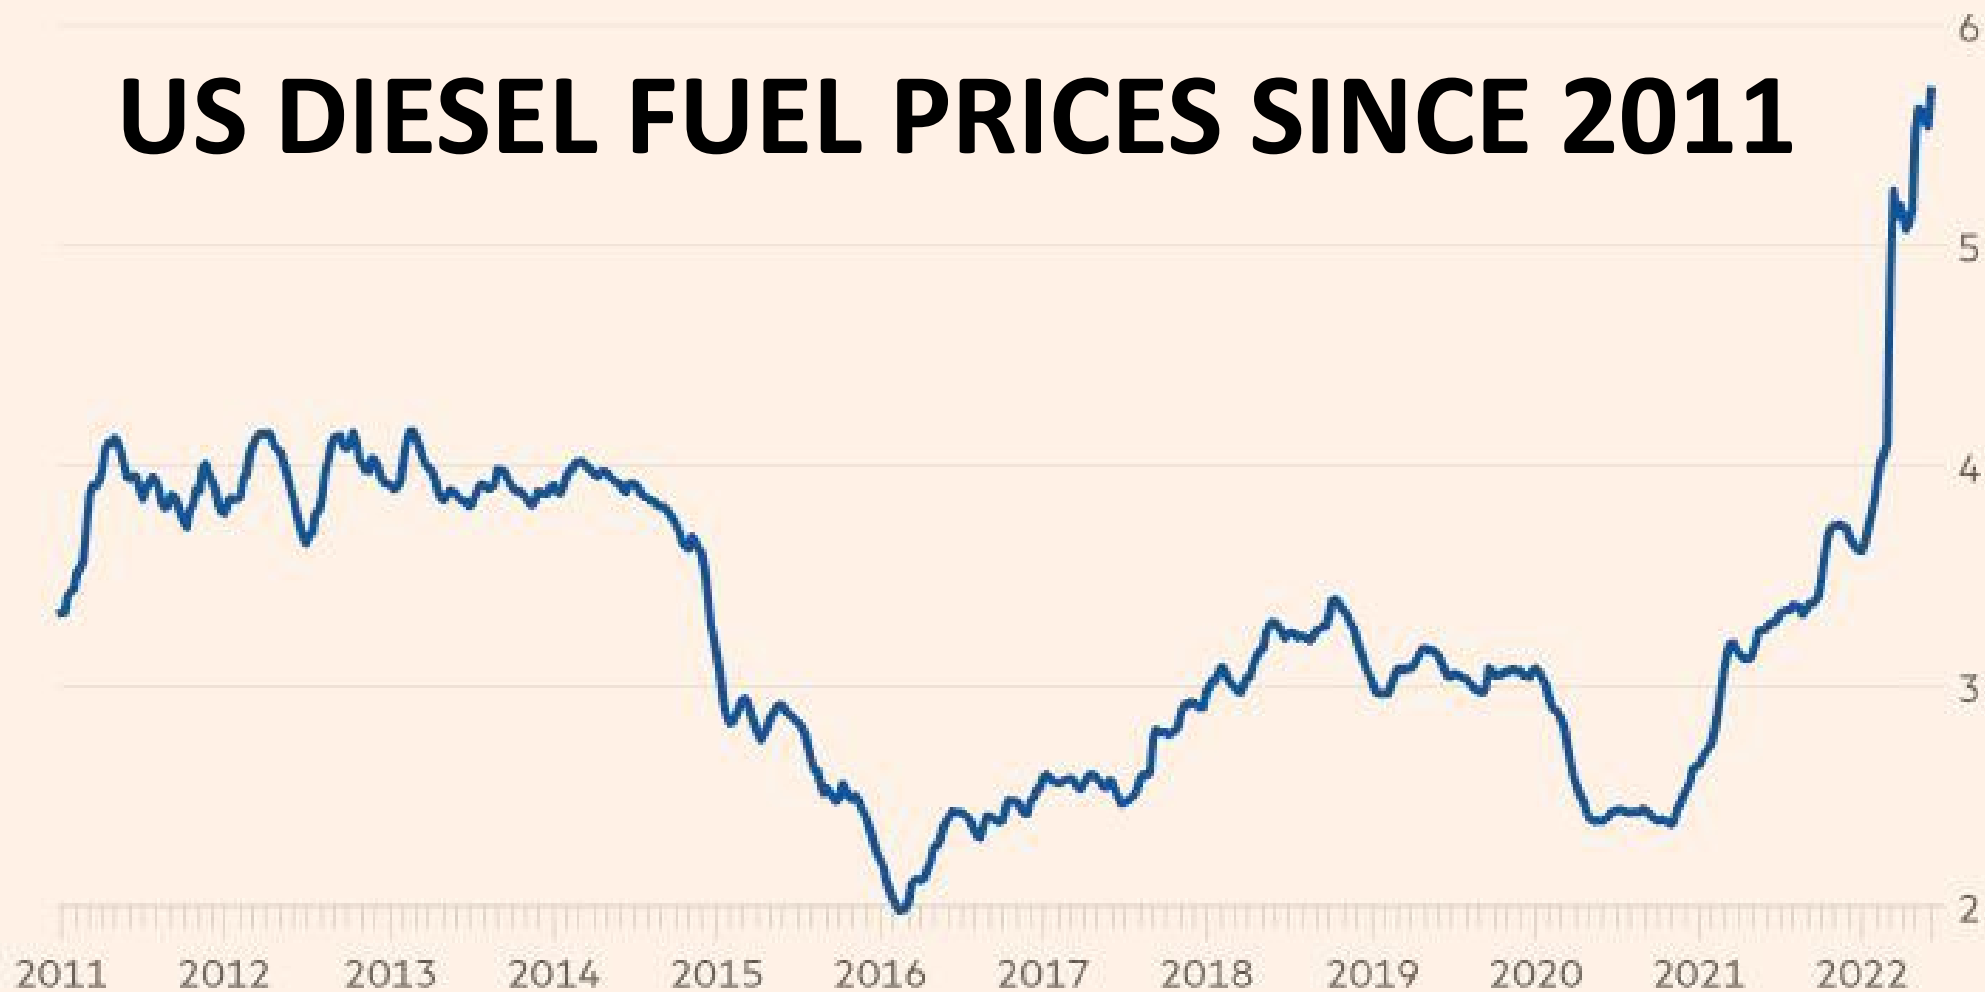

According to industry statistics, in 2023 alone, 88,000 trucking COMPANIES either SHUT DOWN or sold assets due to RISING DIESEL FUEL COSTS!

Diesel prices hit record highs

US national average (\$/gallon)

US DIESEL FUEL PRICES SINCE 2011

Source: Energy Information Administration

In the USA, 3.7 million heavy-duty trucks burn over
69 BILLION GALLONS
of diesel fuel annually, which
equates to over
\$268 BILLION DOLLARS!

**Imagine the trucking
industry**

SAVING 10 to 15%

of those

\$268 BILLION DOLLARS

spent on diesel fuel!

Introducing OUR Solution - “Hydrogen on the Go™”

But what is Hydrogen?

**HYDROGEN IS THE MOST ABUNDANT
ELEMENT IN THE UNIVERSE. IT IS THE
FUEL OF THE STARS!**

IT IS GOD'S PERFECT FUEL!

**Make Hydrogen at Home with Water, Salt, & a 9v Battery.
Drop the Battery into the Salt Water and Catch the Hydrogen
Bubbles with a Plastic Cap. Then, Light it with a Match!**

Diesel engines waste 10% in unburned fuel, which is the reason for the black soot coming from the truck's smokestacks with that strong diesel odor. Hydrogen solves this problem by burning 10x FASTER than diesel fuel. Here's how our system works -

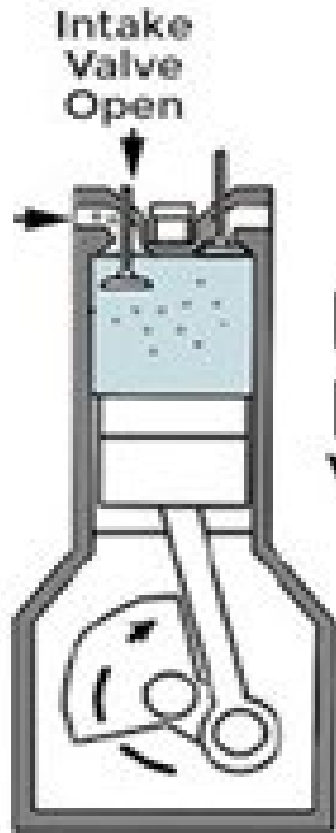

**Our System CREATES Hydrogen
while the Truck is IN MOTION!**

**ZERO Hydrogen is made or stored,
when the engine is TURNED OFF!**

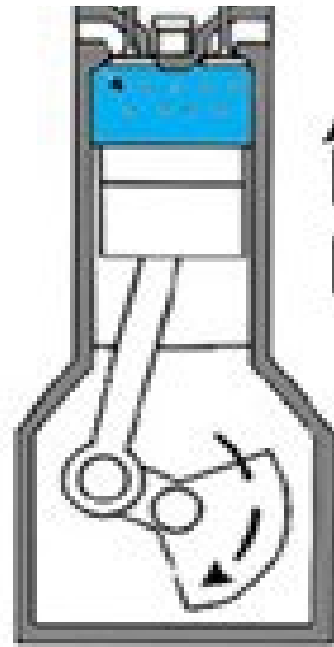

Our new Hydrogen mixes with air and then CO-COMBUSTS with the diesel fuel!

**HYDROGEN
& AIR IN**

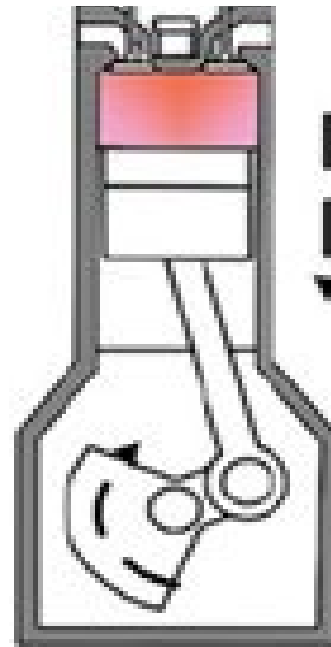

Intake

**DIESEL IS
INJECTED**

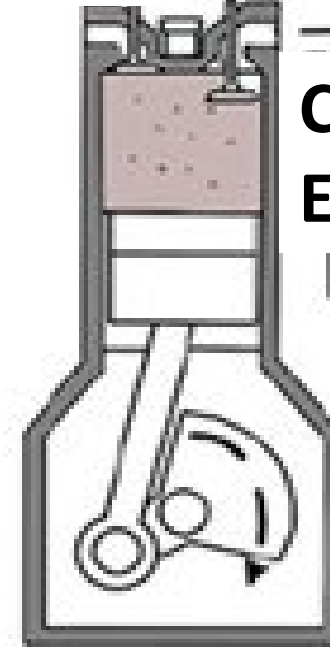

Compression

**DIESEL/HYDROGEN
CO-COMBUST**

Power

Exhaust Valve Open

Exhaust

**CLEANER
EXHAUST OUT**

Here are the BENEFITS!

BIG FUEL SAVINGS!

**MORE ENGINE
POWER!**

**A CLEANER
BURNING ENGINE!**

**CLEANER ENGINE
EXHAUST!**

**CLEANER FUEL
FILTERS!**

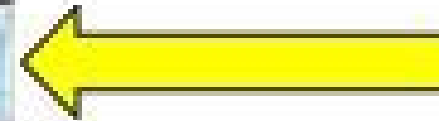

QUICK PAYBACK!

Our Unit easily fits any diesel semi-tractor!

**DIESEL &
HYDROGEN
CO-COMBUST**

**OUR UNIT
INSTALLED**

Our Unit is EASY to install and access!

Our Solution in Dollars & Cents

- Trucks travel over 100,000 miles per year.
 - Diesel costs average \$1 per mile to operate.
 - A truck's initial life span is 5 years or 500,000 miles.
 - Savings of \$20,000 per year equal \$100,000 in 5 years. This buys a low-mileage used Semi-tractor !
- This is REAL BOTTOM-LINE SAVINGS!

Our FIRST MAJOR SALE

We're happy to announce that we signed our first major sale with Blessings of Hope Ministries.

Blessings of Hope is a Christian non-profit organization committed to addressing the hunger problem in the USA, where 44.2 million Americans with 13.1 million children are food insecure! Blessings of Hope is purchasing 24 Units at a price of \$12,000 each.

WE OFFER INVESTORS

- The Opportunity to INVEST at the Ground-Floor Level in a Fuel-Saving Technology for the \$538 Billion US Trucking Industry.
- The Opportunity to IMPACT the Trucking Industry in 4 Ways: ENVIRONMENTALLY – ECONOMICALLY – SOCIALLY – and most importantly, SPIRITUALLY.

4-Ways We IMPACT the Trucking Industry

- ENVIRONMENTALLY – WE REDUCE TOXIC EMISSIONS BY UP TO 50%!
- ECONOMICALLY – WE REDUCE RISING FUEL COSTS BY UP TO 20%!
- SOCIALLY – WE CONDUCT BUSINESS IN A BIBLICALLY-RESPONSIBLE MANNER!
- SPIRITUALLY – WE ARE A NEW LIGHT FOR CHRIST IN THE TRUCKING WORLD!

Our Go to Market Plan

1st - Class 8 Trucks

2nd - Industrial Oil & Gas & Mining

3rd - Maritime

4th - Military

**WHEN WE SELL
JUST ½ of 1% of America's
3.7 Million Semi-Tractors,
(18,500 Units)**

WE WILL BE OVER \$185M in SALES!

IN SHORT –

We bring REAL VALUE to the
US Trucking Industry along
with a WITNESS FOR CHRIST!

Our Ministry goal is to serve non-saved
truckers as a company fully committed to
Christ! Later, we will go INTERNATIONAL!

Our Offering

\$1,250,000

2,500,000 shares of Preferred Stock for \$0.50 per share.

We have a Private Placement Memorandum (PPM) available upon demand, an online Deal Room, and our website: www.thehydrogen-group.com. This is a SEC Regulation D 506c Offering for accredited investors only.
